

A college readiness partnership

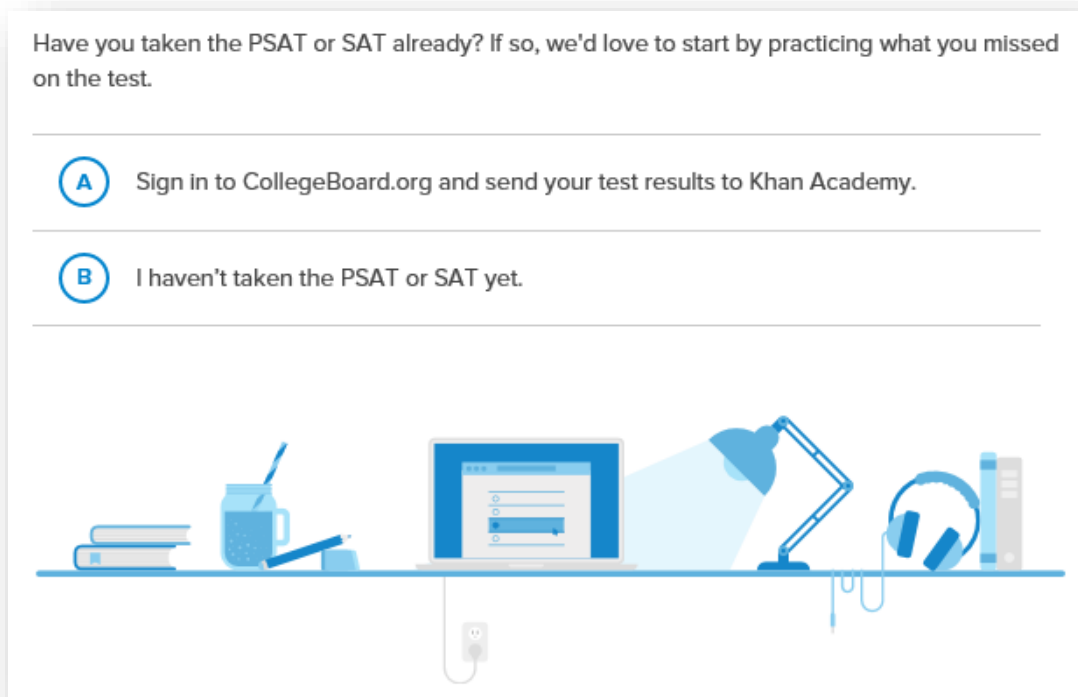

# Official SAT<sup>®</sup> Practice

For the first time ever, the creators of the SAT have given Khan Academy exclusive access and advice to build a personalized practice program for anyone, anywhere. These tools are free and available now for every student!

Click here to get started... <https://www.khanacademy.org/sat> ...OR... to find this from the main Khan Academy page start at [www.khanacademy.org](http://www.khanacademy.org) and choose “subjects” and then “Test Prep” or “SAT” to access their PSAT/SAT materials.

Once you’ve created an account on Khan Academy, choose “test prep” and you’ll see the following screen:

Then you can sign into the college board, have your PSAT or SAT test results connected, and the practice questions will be targeted to the kind of questions you were weaker in on the test. If you haven’t taken one of the tests - or don’t want to link your data - there are diagnostic quizzes to find weak areas to practice.

Parents can also create an account, link it to their kid’s account and “follow” their kids’ progress – with kid permission.

**Try it out... It's AMAZING, and it's FREE!**
