

Innovation Expo – Promo Video

Everett Public Schools' annual Innovation Expo brings students, parents, teachers and community members together with businesses and organizations for a night of fun and learning.

More than 30 local and regional community organizations and businesses participate with inter-active displays where attendees see how innovation plays a crucial role in our community now and into the future.

Thousands of visitors interact with the exhibits, which fills the main concourse of Xfinity Arena before viewing the student competition projects.

The Student STEM Competition showcases student projects from across the district. Students use critical thinking and problem solving skills in creating their projects, competing for awards and prizes in multiple categories.

After the projects are judged and the scores tallied, everyone gathers for an award ceremony.

Innovation Expo 2017 is scheduled for the evening of June 8, at Xfinity Arena..... at this free event students, teachers, parents and community members will gather with industry leaders, to again share and learn about innovation.
