

# STAY CONNECTED

Everett Public Schools believes communication with parents and the community is important. This chart will show you the different ways you can regularly keep informed, but particularly during an emergency. Items highlighted in **orange** are go-to places during emergencies or communication of important information. During an emergency, the goal is to get as much information out as fast as possible using as many channels of communication to accommodate a variety of preferences for receiving information. The communication methods on this chart are official means of communication from the district.
