

## **February 3, 2017**

- Sphero - look into these
  - Program sphero (code) to go through a maze, create an art project, etc... using a ipad (looking into if a Kindle Fire will work)
- Engineering/Maker Space
  - Design squad (pbs kids career videos)
- Programming/Coding Sites and activities used
  - Code.org (courses and accelerated computer sciences)
  - Codapillar (app)
  - CS First lessons (Google)
  - Tynker/Scratch (Jr.)
  - Kodable (create accounts)
  - Language to extend skills for kids that are interested (use Python)
- Productivity Applications
  - Jasper Active (certification courses through microsoft)
  - Google drive vs. office 365
- Technology Integration (SAMR Model)
- Visual Communications
  - Digital art
    - Photography
    - Video
    - Photoshop/premier - try pixlr (free alternative - express editor first)
    - Infographics
    - Graphic design publisher
    - Made with code activities

Career Connected Learning - Elementary School is the place for this!
