

SECOND GRADE STARS

Friends & Ms. Toneri

November 19, 2021

Literacy

We finished our last week of study about "What does it take to survive in the wild?" We are excited we completed our informational reports.

We are super interested to begin our study of water with the big question: "Where does water come from?" We enjoyed a City of Everett Speaker yesterday in class.

*If you want to check your student's google classroom, here is our code:

Grateful Week

Monroe is celebrating being grateful this and next week. As we bid farewell to Neve today (she's moving to Italy) we are thankful we had the opportunity to learn, play and be friends with Neve.

She will be missed! On a personal note, I am thankful for a job I LOVE and for the opportunity to teach & learn with your children each and every day.

Mathematics

Yahoo, we began our mathematical unit study about measurement.

We've enjoyed measuring many things with centimeter cubes and our rulers this week!

Check out the back of this newsletter for inspired students who have created quick checks in math.

Important Dates Coming Up

November 24th-26th (3 days this year)

Thanksgiving Break ❤️

Enjoy the break, homework you ask?

Whaaat, it's vacation time, just find a great book to read for fun!

TAKE FLIGHT!

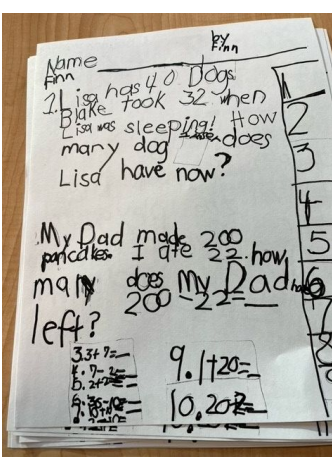

Ask your child about his/her week...

"Share something for which you are grateful."

"Why do you need to start at the very end of an object when you measure it?"

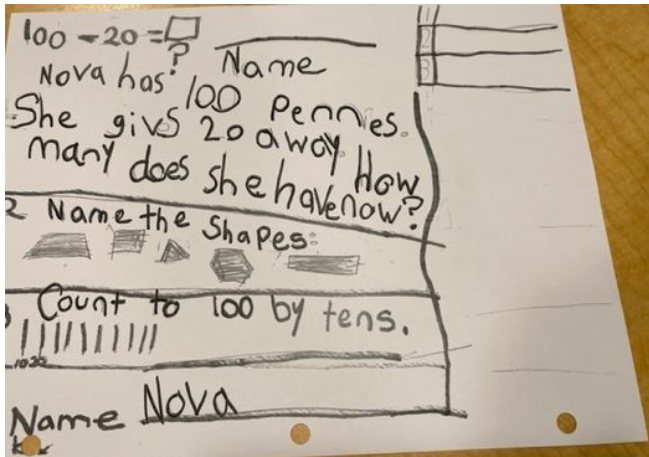

"What is the difference between narrative writing and informational writing, which type do you like best?"
