

SECOND GRADE STARS

Friends & Ms. Toneri

October 14th, 2021

Conferences

Thank you for signing up for a conference time! I so look forward to discussing your unique, interesting and amazing children with you. If you need to find "live" links sent in newsletters, they can be found electronically on either my website or canvas page in "announcements".

Butterflies and Literacy

Wow, our butterflies have made hanging js and chrysalis' in their metamorphosis. It's time to transfer some of them to our big classroom butterfly home. It is so interesting learning about the life cycle and structure of the painted lady butterfly.

Conversation Starters with Your Student

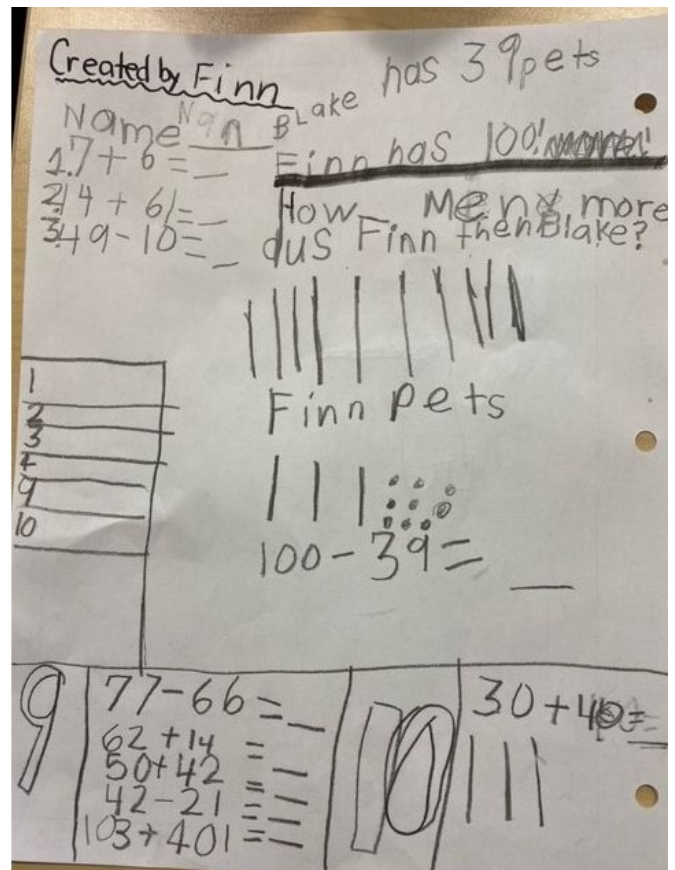

"Describe the metamorphosis of your caterpillar to me...."

Show me with paper and pencil how to solve $___ - 4 = 13$? Hint: Draw a # line or picture.

"Thinking about animals in the wild, what is one way they help themselves survive?"

Mathematics

This week, Finn is spotlighted in challenging himself to create a math lesson for his classmates based on what we are presently learning.

TAKE FLIGHT!
