Butterflies and Literacy

Wow, our butterflies are getting fat and full, we even have some chrysalises! Next week, we will further extend our knowledge about the life cycle of butterflies as we enjoy not only observing their growth but also engaging with informational reading, writing and painting about how to care for our friends for which we are

Conversation Starters with Your Student

What is the most interesting fact you've learned about butterflies?

Show me with paper and pencil how to solve $17 + \underline{\quad} = 48$? Hint: Draw a # line or picture.

Name your favorite wild animal and describe its habitat...

Mathematics

Next week we continue our study of "Adding and Subtracting within 100" using place value! This unit will include story problems that involve one and two-steps with unknowns in different positions. Students will also use number lines and base-ten cubes in addition to place value charts to solve problems.
