

SECOND GRADE STARS

Friends & Ms. Toneri

October 8th, 2021

Conferences

Next week, please look for an email to come home with a live link where you will be able to sign-up for a conference time of your choice. I am happy to conference with you via zoom or in-person. If you need to find "live" links sent in newsletters, they can be found electronically on either my website or canvas page.

Mathematics

Next week we're starting our new math unit: "Adding and Subtracting within 100" using place value! This unit will include story problems that involve one and two-steps with unknowns in different positions. Students will also use number lines and base-ten cubes in addition to place value to solve problems.

Butterflies and Literacy

Our science unit is all about butterflies and we are observing, reading, writing and collecting data all about our colorful friends. This science study ties in really well to our next reading unit: "What Does It Take to Survive?" In this unit, we talk about why animals and plants have different attributes and how those adaptations and attributes help them survive. Ask your child how his or her butterfly is changing.

Important Dates Coming Up

Fridays-Early Release at 1:35 p.m.

October 22nd: PTA Pumpkin Party

Conferences: November 1st-4th

Look for a Live Link to Sign-up Next Week

November 11th: Veterans Day (no school)

November 24th-26th-Thanksgiving Break

TAKE FLIGHT!

Conversation Starters with Your Student

"Your butterflies arrived! Describe what you observed (use your 5 senses)?"

"What is data and how do you take a survey and create a graph to show results?"

"What is your favorite way to practice your spelling words?"
