

SECOND GRADE STARS

September 17th, 2020

i-Ready

This week students are participating in an I-Ready diagnostic assessment. This helps us know their abilities and also calibrates the program to their levels so that they can use I-Ready independently. Starting next week, their goal is to get 50 minutes of Reading and 50 minutes of math each week. There is time built into this at the end of each school day, but whenever it works best for your family is fine!

Specialists

Our specialists started yesterday! Your student has access to each specialist's canvas page which has all of their information and links. These specialist times will be shared with another class, so it's important to remember to follow the instructions carefully. The rules and supplies may be different for each specialist as they are from your homeroom teacher. They will go into detail during their sessions.

Tech Support

We teachers will try to help with as much as we can, but there are some things that are beyond us! Our district created a parent help desk with amazing people.
