

Name _____

Exploring Length

Look at the crayon.
About how many cubes long is the crayon?

When you **estimate** how long something is, you make a good guess.

Estimate.

I think the crayon is about _____ cubes long.

Then measure using cubes.

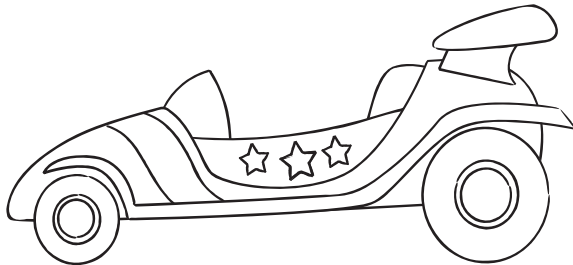

The crayon is about 5 cubes long.

Estimate the length of each object.

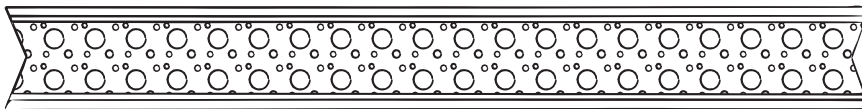

Then measure using cubes.

1. I think the car is about _____ cubes long.

The car is about _____ cubes long.

2. I think the ribbon is about _____ cubes long.

The ribbon is about _____ cubes long.
