

Centimeters

Use a ruler to measure centimeters.

To measure to the nearest centimeter, look at the halfway mark between centimeters. If the object is longer, use the greater number. If the object is shorter, use the smaller number.

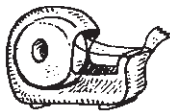

The paper clip is about 3 centimeters.

This part of the door is about 100 centimeters.

1. Writing in Math Find something in the classroom to measure in centimeters. Draw the object and write the measurement to the nearest centimeter.

Estimate the height or length. Then use a ruler to measure.

2. length of a tape dispenser 

3. height of a book 

Estimate	Measure
about _____ centimeters	about _____ centimeters
about _____ centimeters	about _____ centimeters
