

Name _____

Comparing Length

What is the total length of the path?

Path A

Measure each part of a path to find the total length.

$$\underline{3} + \underline{5} = \underline{8}$$

The path is 8 centimeters long.

Use a centimeter ruler to measure the path.

1. Path B

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

 centimeters long

2. Which path is longer? Circle the answer.

Path A

Path B

3. How much longer is the longer path?

 centimeter
