

Name _____

Right Answer, Write Rule

1. Ashley has 1 teaspoon to measure 5 tablespoons.
If 1 tablespoon is equal to 3 teaspoons, how many
teaspoons does she need?

Complete the table.

Number of Tablespoons	1	2	3	4	5
Number of Teaspoons	3				

Write a rule for the pattern.

2. A rule for this table is “add 7.”

Which number does not belong?
What is the correct number?

Mike's Age	Lauren's Age
2	9
5	12
7	15

3. José and his dad went to an aquarium and saw
a tank with 5 octopuses. José counted 8 tentacles
on 1 octopus. Tentacles are like long arms. How
many tentacles do 5 octopuses have? Write a rule.
