Notes-

The district times are what it takes to qualify for the district meet. Each team gets one entry, regardless of time, but can have up to up to four entries per individual event who meet this minimum standard. This year's standards are not established, but will be updated as soon as they are available.

Top four (4) swimmers from district finals will advance to state, plus anyone who has achieve a state qualifying time AND competed in that event at the District meet.

Relays for the district and state meet will be determined by a swimmer's rank on this season's top time list.

Divers MUST qualify at an 11- dive meet in order to compete at the district meet. 11-Dive qualifying meets will be scheduled on Saturdays throughout the season.

Up to three (3) additional swim meets may be added to the current schedule.
