## Destiny 12.5 Features

Welcome to Destiny® 12.5. This new version incorporates many of your suggestions, and we're confident you'll find that the enhanced features and functions of Destiny 12.5 meet your needs. This document introduces you to the Destiny 12.5 features available in Destiny® Library Manager™, Destiny® Textbook Manager™, and Destiny® Asset Manager™. We know you'll want to start using these enhancements right away.

**Important:** Customers who want to update to the latest version of Destiny must be on Destiny v12.0. If you have a version of Destiny earlier than v12.0, you must first update to Destiny v12.0 before you can update to v12.5.

 **Important:** Microsoft announced that Windows Server 2003 Extended Support will end in July, 2015. Follett anticipates that future Destiny releases will not support Windows Server 2003. Follett recommends that customers upgrade Windows servers to a minimum of Windows Server 2008 before July, 2015.

### Library Manager

WebPath Express Limiter Update: The search results limiter 'Topic' is now 'Related topics'.

Universal Search Updates: Universal Search continues to empower your students by including their reading history in the Universal Search Bookbag. Students also have more search limiters to find resources with.

**Note:** As part of the end-of-life migration process, all Catalyst Media audio books will be removed from your Destiny library collection and replaced by the Follett Audiobook equivalent.

### Resource Manager

Overview of new Destiny Resource Manager: With all the capabilities of Destiny® Asset Manager™, Destiny® Resource Manager™ includes several new features that let you catalog, circulate, and report on your textbook resources.

Resources Template Textbooks Group: The resource template helps you organize your resources so you can find, inventory, and report on them easily. The template now has a default textbooks group to accurately account for your textbooks throughout the school year.

Cataloging Textbook Resources: Cataloging and tracking your print and digital textbooks ensures your students have the textbooks they need and that you get the most out of your textbook investment.

Search Resources: Additional search options for textbooks and detailed information in the search results make it easy to find your textbook records.

Fine Types: In addition to more Fine Types to choose from, you can create new Fine Types for your site.

## Textbook Manager

*"Lost Textbooks and Fines" Report Enhancement:* You can now limit the report to textbooks that currently have a status of Lost. Also, generate the report—which includes new fields—in Microsoft® Excel® format.

**Note:** The addition of limited textbook functionality to Destiny Resource Manager does not affect Destiny Textbook Manager. Districts which have both Destiny Textbook Manager and Destiny Resource Manager will **not** see the textbook functionality in Destiny Resource Manager.

# Destiny 12.5 Automatic Update Features

## All Destiny

-  **Username Enhancement:** Destiny now accepts the single quote/apostrophe in patron usernames.
-  **Processing Needed Flag Update:** The Processing Needed flag is larger and more visible, helping you know when a hold or transaction needs your attention.
-  **Login Enhancements:** Site-level users can now log in at the district Welcome page. Additionally, the site Login page has been simplified for patrons.
-  **British Region Format Support:** Destiny now supports British currency, date, and time formats.
-  **Follett Messages:** Destiny staff users can receive important messages and news directly from Follett.

## Library Manager

-  **Check In Enhancements:** A new check in method, Ready Scan, lets you check in materials even faster. You also see the 20 most recent checkins in the Most Recently Checked In list.
-  **Daily Checkins Report:** You can now see an HTML report of today's checkins right from the Check In page.
-  **One Search Database Usage Report Enhancement:** To give you the exact information you need, you can limit your One Search Database Usage report to a specific date range.
-  **Searching for ILL Materials Enhancement:** You now receive all search results when conducting a Holds/ILL search.
-  **Packing List for ILLs:** You can now print a packing slip to put with library materials being loaned to another library.
-  **Email Notifications for Holds/ ILL Requests:** You can now receive a daily email notification of any new holds or ILL requests that need to be processed.
-  **Delete Pending ILL Requests:** Library staff at the requesting school and the requesting patron can now delete pending ILL requests.
-  **View Unapproved ILL Requests:** Requests on a library patron's MyInfo page can now display as status of 'Unapproved'.
-  **Provide a Note for Declined ILL Requests:** Library staff at a lending library can now provide a reason for declining an ILL request.

 **Audiobook Support:** Library Manager reverted to displaying the material type, Sound Recording (non-musical), instead of Audiobook, with the one exception of Follett Audiobook.

 **Universal Search Update:** Universal Search has several new features to make it even easier for your patrons to keep track of resources used and create citation lists by integrating with EasyBib.

## Resource Manager

 **Report Builder for Textbook Resources:** You can now generate 'Names' and 'Items' reports for textbooks in Report Builder.

## Media Manager

 **Ceiling Date for Bookings:** You can now configure a ceiling date for all bookings to end, even if the due date is after the ceiling date.

# Destiny 12.5 Features

# **Destiny Library Manager**

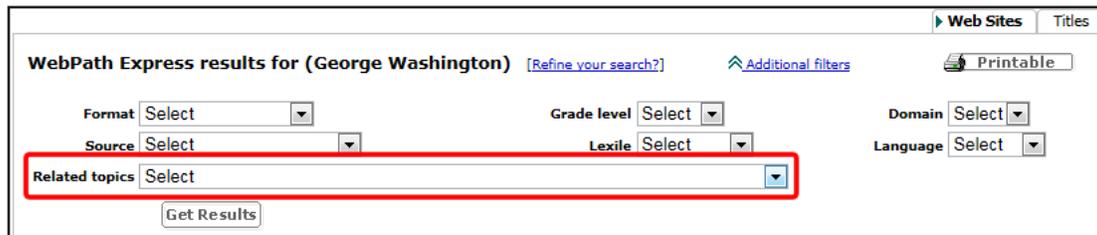

## Library Manager

# WebPath Express Limiter Update

### Feature Description:

The search results limiter 'Topic' is now 'Related topics' in WebPath Express.

The screenshot shows the WebPath Express search results limiter interface. The search results are for "George Washington". The interface includes several filter options: Format, Grade level, Domain, Source, Lexile, and Language. The "Related topics" dropdown menu is highlighted with a red box. Below the filters is a "Get Results" button.

### Importance:

Your patrons easily know where to go to find topics related to their original search in WebPath Express.

## Library Manager

# Universal Search Update

### Feature Description:

From the Reading History section of your Universal Search Bookbag, you can view your previous checkouts and any Follett eBooks you have opened.

### Feature Information:

The new updates to Universal Search include the following:

- Patrons can access their reading history—including any Follett eBooks they opened or checked out, as well as checked-out print books—in their Universal Search Bookbag.
- Patrons can limit search results by reading level, interest level, or reading program.

**Note:** Library Manager shows the status only for Follett digital materials (eBooks and audiobooks).

### Importance:

Finding a resource is even easier for your patrons, and they can keep better track of resources they have accessed and checked out.

# **Destiny Resource Manager**

## Resource Manager

# Overview of Destiny Resource Manager

### Feature Description:

Destiny Resource Manager includes several new features to let you catalog, circulate, and report on your textbook resources.

### Feature Information:

In addition to the features revolving around cataloging and tracking textbook resources, all instances of the word "asset" are now "resource". Additionally, the resource template tree now has Textbooks nested as the first group under Resources.

**Note:** If your district has *any* Destiny® Textbook Manager™ licenses, Destiny Resource Manager hides all textbook-related features in Destiny Resource Manager.

To handle textbooks, Resource Manager has the following new pages:

- **Catalog > Add Resource > Textbooks** (from "Find all" drop-down), **Edit Textbook**, **Add Teacher's Edition**, and **Add Resource kit pages**
- **Catalog > Add Resource > Textbooks**

**Note:** This page includes T2 search results. T2 is an online database, managed by Follett. It contains thousands of textbook resource description records for you to import to your catalog anytime.

- **Catalog > Resource Lists**
- **Reports > Used resource item barcodes > Textbooks**

The following pages have new fields in Resource Manager:

- **Catalog > Add Resource > Edit Templates > Edit "Resources" Template** has a new data type: Year.
- **Catalog > Add Resource > Edit Templates > Edit "Textbooks" Template** gains an additional data type: ISBN.
- **Catalog > Resource Search** has many more options and filters.
- **District Setup > Edit <school name>** gains the ability to define and assign Alternate Site Types.
- **Back Office > Resource Policies > Textbook Loan Policies** now contains new conditions for all your resources.
- **Back Office > Resource Policies > Textbook Loan Policies** lets you auto-condition your textbooks based on the number of circulations, but textbook resources cannot be conditioned as Damaged, Usable, or Unusable.
- **Back Office > Site Configuration > Circulation** lets you set the fine policies for resources.
- **Circulation > Fines > Add Fine** lets you add a fine for overdue resources and patron fines.

### Permission:

See **Appendix** for more information on permissions in Destiny Resource Manager.

### Importance:

You can easily manage *all* your resources in Destiny Resource Manager, including your print and digital textbook resources.

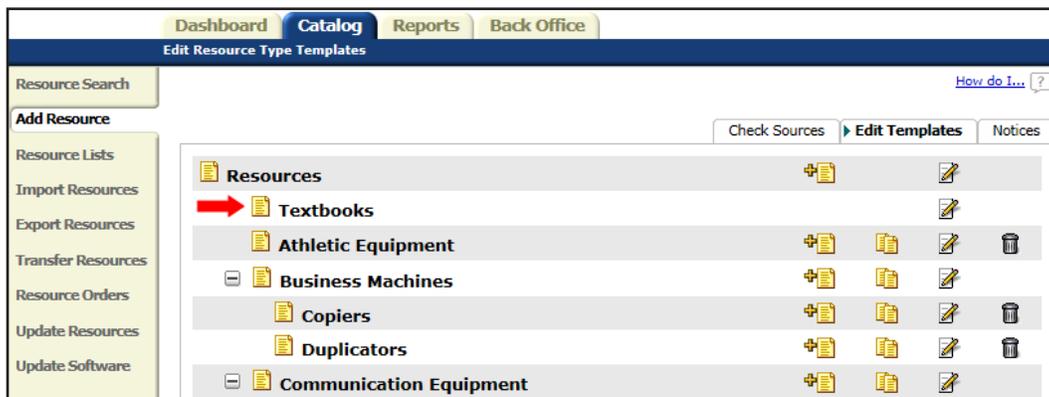

## Resource Manager

### Resources Template Textbooks Group

#### Feature Description:

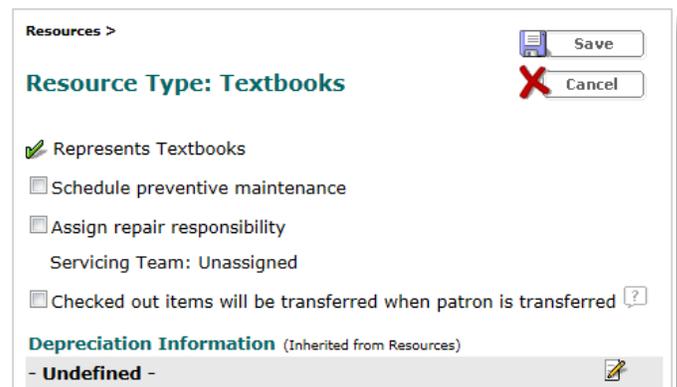

The Resources template now has a default textbooks group. Use it to accurately track, inventory, and report on your textbook resources.

#### Feature Information:

The textbook group is always the first resource group listed on the template. It has several options and rules that do not apply to other templates. The textbook-specific options and rules are:

- The template name cannot be edited.
- The Represents Textbooks option cannot be deselected, nor can it be used with any other resource template.
- The "Represents software..." option is unavailable for textbooks.
- The Displayable Name is the title field of the textbook description record.
- Child templates cannot nest under the textbooks group on the Resource Template.
- The default fields in the Textbooks template cannot be edited or deleted.

Importing a template does not overwrite the new default Textbooks template. Also, the import automatically creates all permanent fields in the Textbooks template. Note that the Textbooks template is included when you export a resource type template.

#### Importance:

School districts can now track, inventory, and report on one of their most expensive resources, textbooks.

## Resource Manager

# Cataloging Textbook Resources

### Feature Description:

Destiny Resource Manager makes it easy to catalog and track your textbook resources with all of your other resources in one spot.

### Feature Information:

Cataloging your textbook resources helps you account for each and every one. Like other resources, each textbook title has a resource description record in your catalog with corresponding item records for each of the textbook copies.

### Adding Textbook Description Records

Use the following steps to add a new textbook description record to your catalog:

1. Select **Catalog > Add Resource > Check Sources**.

**Note:** If you do not have the 'Manage resource templates' access level permission, you only need to select **Catalog > Add Resource**.

2. Click the **Find all** drop-down to select **Textbooks**.

3. The second drop-down defaults to Books. You can choose a different option based on the material type you are adding to your catalog, such as electronic books or kits.

4. Click the **with** drop-down to select your search criteria.

**Note:** Follett recommends you search by ISBN to ensure you get an exact match.

5. Select the option to limit T2 database records to only those adopted by your state.

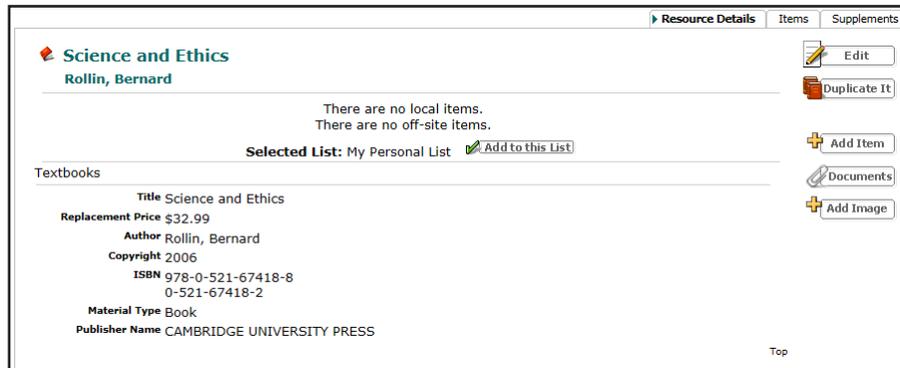

6. Enter your search term in the field, and click **Go!**.

7. From the search results, select the title of the textbook you want to add to your catalog.

**Note:** Search results with the  icon are already in your district's catalog. You should not re-add a description record already in your catalog; simply add textbook item records to the pre-existing textbook description record.

8. From the title details, click . The textbook description record is saved to your district's catalog.

9. Click  to update the textbook description record with the instructional classification, publisher and vendor names, adoption years, and other information.

10. After completing the fields, click . You can now add textbook item records to the textbook description record.

### Adding Textbook Item Records

Once you save the textbook description record in your district's catalog, you need to add textbook item records for each textbook copy you own. Use the following steps to add textbook item records to your catalog:

1. Select **Catalog > Add Resource > Check Sources**.

**Note:** If you do not have the 'Manage resource templates' access level permission, you only need to select **Catalog > Add Resource**.

2. Click the **Find all** drop-down to select **Textbooks**.

3. The second drop-down defaults to Books. You can choose a different option based on the material type you are adding to your catalog, such as electronic books or kits.

4. Click the **with** drop-down to select your search criteria.

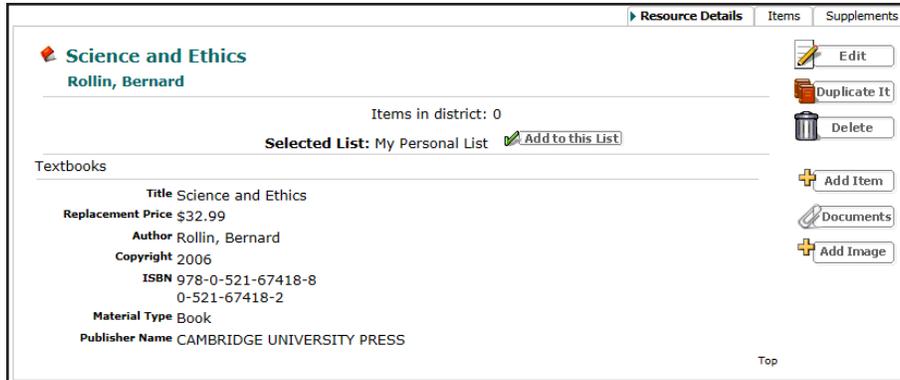

**Note:** Follett recommends you search by ISBN to ensure you get an exact match.

5. Select the option to limit T2 database records to only those adopted by your state.

6. Enter your search term in the field, and click **Go**.

7. From the search results, select the title of the textbook items you want to add to your catalog.

8. Click .

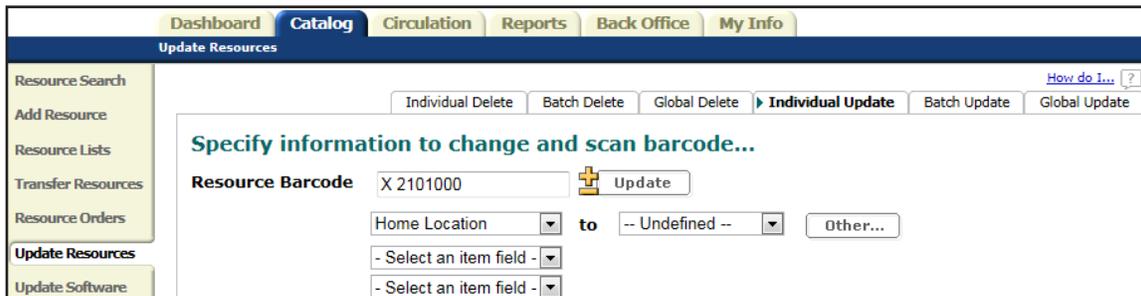

9. On the Add Item page, select whether you are adding a certain number of items, have items from a barcode list, or have items from a barcode file.  
**Note:** If you are a district-level user, you can select the site type and site name when adding textbook items.
10. If you are adding a certain number of textbook items, enter the lowest barcode in the **Starting Barcode** field. You can also select to have Destiny Resource Manager assign the next available barcode to the first textbook item.  
**Note:** You cannot add textbook items without assigning them barcode numbers.
11. After you complete all the fields, click **Save**.  
**Note:** You can print barcodes by selecting **Reports > Resource Reports > Barcode Labels**.

Completing an Individual Update for Textbook Resources

There are times when you need make the same update to multiple textbook item records in your catalog. For example, you might need to update the home location of textbooks after you move them from a storage room to a classroom. Use the following steps to update a textbook resource individually:

1. Select **Catalog > Update Resources > Individual Update**.
2. Select a field to update.
3. Then, select or enter the new contents of the field in the list or box that appears.

**Note:** You can update up to 14 fields by repeating steps 2 and 3. To clear a field, select it from the list and leave the adjacent list at "-- Undefined --", if available, or the box blank. You can also enter a historical note that is permanently added to the textbook item's Transaction History.

4. Scan or enter each textbook resource's barcode in the **Resource Barcode** field.

The items you scanned or entered are updated. Any historical note is added to the item's permanent Transaction History.

### Importance:

Accurately cataloging and updating your textbook resources helps control costs while ensuring students and teachers have the resources they need to succeed.

## Resource Manager

### Search Resources

#### Feature Description:

There are additional Resource Search options in order to include textbooks.

#### Feature Information:

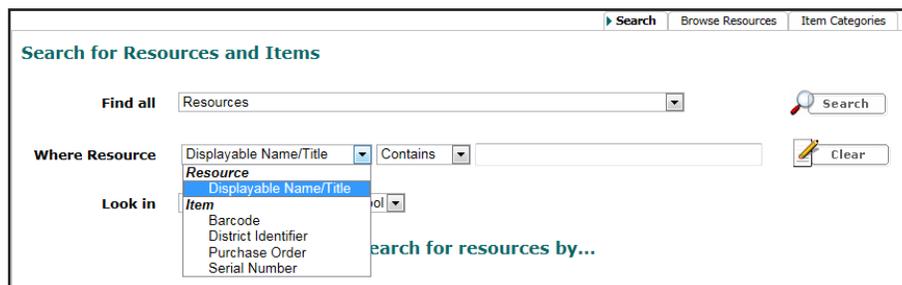

##### Search

Resource Search was expanded to include the following fields for textbooks only: Title, Author, Instructional Classification, Subject, (Default) Budget Category, Additional Information, Publisher Name, Vendor Name, and Note.

Note the following:

- An ISBN search validates the ISBN and accepts both 10- and 13-digit numbers.
- A State/Textbook ID search is a Starts With search.
- New checkboxes let you include Teacher's Editions or Resource Kits, or both.

When you select Resources from the "Find all" drop-down, the search options and limiters are the same as they were in Asset Manager.

When you select Textbooks from the "Find all" drop-down, the search options increase, while the limiters stay the same. The first time you select Textbooks from the "Find all" drop-down, Title is selected in the Where Resource drop-down. Note that the "Find all" and Where Resource drop-down selections default to the last options a specific user selected.

#### View Search Results

Searching Resources will return all resources that match the specified criteria, including textbooks. For example, the search term "calc\*" returns the textbook, *Calculus*, and calculators.

Resource Manager Search Results display more information for textbooks than for other resources. Depending on how complete your textbooks' resource description and item records are, Resource Manager shows the following information for textbook resources on the specified page(s):

**Catalog > Add Resource**

- Row 1: Material Type icon; Author; ISBN: (only the first if there are multiples), Replacement Price
- Row 2: Publisher Name; Copyright year; Edition
- Row 3: State Adopted:; District Adopted:; Adoption Ends:
- Row 4: State/Textbook ID:; Grades (From and To)
- Row 5: Additional Information

**Catalog > Resource Search > Browse Resources****Catalog > Resource Search > Search****Catalog > Resource Lists**

- Row 1: Material Type icon; Author; ISBN: (only the first if there are multiples), Replacement Price
- Row 2: Publisher Name; Copyright; Edition
- Row 3: State/Textbook ID:; Grades (From and To)
- Row 4: Additional Information

**Circulation > Check Out Items****Catalog > Resource Search > Item Categories**

- Row 1: Material Type icon; Author
- Row 2: Publisher Name; Copyright year; Edition

**Permissions:**

'Use Resource Search' or access to any of the pages listed

**Importance:**

With the increased Resource Search options and information in search results lists for textbooks, you can easily find textbook records in Resource Manager.

## Resource Manager

### Fine Types

#### Feature Description:

When assessing a fine, you can select any Fine Type, default or customer-created, for any Resource Type; or create a new type.

#### Feature Information:

##### Assessing a Fine

With a variety of Fine Types to choose from, you can assess a fine for a specific resource that best fits the situation. Use the following steps to assess a fine to a particular resource:

1. Select **Circulation > Fines**.
2. Find the appropriate patron by entering your search criteria in the **Find Patron** field and clicking **Go!**.

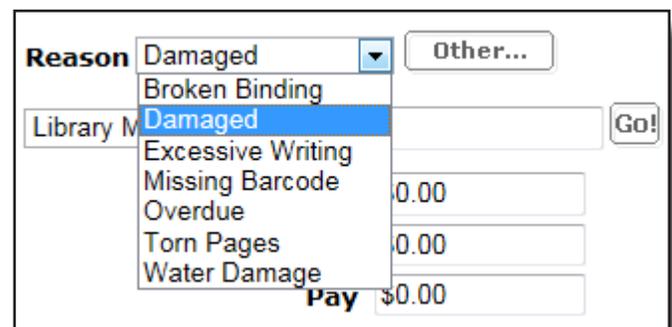

**Note:** Follett recommends searching by barcode to ensure you find the correct patron.

3. Click  **Add Fine**.

The screenshot shows the 'Circulation' tab with the 'Fines' sub-tab selected. A search for 'Dassouli, Robert' has been performed, showing his details and current fine amounts (Library: \$0.00, Resources: \$0.00, Patron: \$0.00). The 'Add Fine' button is highlighted with a red box.

4. From the **Reason** drop-down, select the appropriate reason for the fine.
5. Scan or type the resource's barcode in the **Resource Item** field.
6. In the **Amount** field, enter the amount of the fine.
7. If you are waiving part or the entire fine, enter the amount to be waived in the **Waive** field.

The screenshot shows the 'Reason' drop-down menu with 'Damaged' selected. Other options include 'Broken Binding', 'Excessive Writing', 'Missing Barcode', 'Overdue', 'Torn Pages', and 'Water Damage'. The 'Amount' field is set to \$0.00.

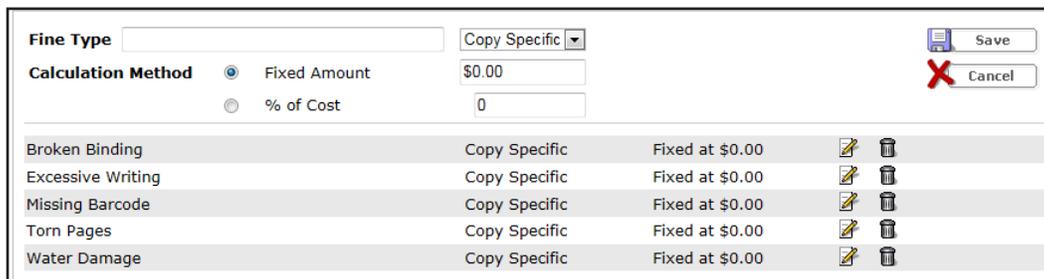

8. If the patron is paying part of the entire fine now, enter the amount paid in the **Pay** field.
9. You can enter a relevant note or description in the **Fine Note** field.
10. Click .

### Adding A Fine Type

If your site needs a Fine Type that is not already in Resource Manager, you can add it. Use the following steps to add a Fine Type:

1. Select **Circulation > Fines**.
2. Find the appropriate patron by entering your search criteria in the **Find Patron** field and clicking **Go!**.
 

**Note:** Follett recommends searching by barcode to ensure you find the correct patron.
3. Click .
4. To add a new Fine Type, click .
5. In the **Fine Type** field, type the name of the new Fine Type.
6. Select if it this is a Copy Specific or Patron Specific fine from the drop-down.

Fine Type	Copy Specific	Fixed at \$0.00		
Broken Binding	Copy Specific	Fixed at \$0.00		
Excessive Writing	Copy Specific	Fixed at \$0.00		
Missing Barcode	Copy Specific	Fixed at \$0.00		
Torn Pages	Copy Specific	Fixed at \$0.00		
Water Damage	Copy Specific	Fixed at \$0.00		

7. Select the calculation method for the fine.
 

**Note:** If the fine is based on the cost of the resource, Destiny starts with either the replacement price or purchase price, depending on the setting in **Back Office > Site Configuration > Circulation > "Create fines using..."**.
8. If this is a fixed amount fine, enter the amount.
9. Click .

### Importance:

You can more accurately assess a fine with new default and self-created Fine Types.

# Destiny Textbook Manager

## Textbook Manager

### “Lost Textbooks and Fines” Report Enhancement

#### Feature Description:

You can now limit the report to textbooks that currently have a status of Lost, and generate the report in Microsoft® Excel® format. The report includes information on the patron and fines associated with the textbook.

#### Feature Information:

To generate the “Lost Textbooks and Fines” report in Excel format:

1. Select **Reports > Textbook Reports > Lost Textbooks and Fines.**

2. Enter the date range you want the report to cover.

**Note:** The date range defaults from the first day of the current loan period to today's date.

3. To limit the report to Lost textbooks, select the **Limit to textbooks currently in lost status** checkbox.

4. Click .

5. When the Report Manager opens, click **View** next to the completed Lost Textbook Fines Report Job.

#### Importance:

You can more accurately determine replacement needs with specific data for how many textbooks have been lost and how much has been collected in fines.

# **Destiny 12.5 Automatic Update Features**

## All Destiny

### Username Enhancement

#### Feature Description:

Destiny now accepts apostrophes in patron usernames. For example, the usernames *jobrian* and *jo'brian* are considered unique patrons.

#### Importance:

When you upload patron records from your SIS, Destiny recognizes usernames that contain apostrophes.

## All Destiny

### Processing Needed Flag Update

#### Feature Description:

The Processing Needed flag is now right next to the last tab on every page. This flag appears anytime:

- Holds are ready to be pulled from your shelves.
- Transactions, such as recommendations, library review comments, MyQuest comments, digital content uploads, need to be approved.
- Transfers need to be received.

#### Importance:

The new positioning and larger size of the Processing Needed flag helps you to know when there is a hold or transaction that is ready for your attention.

## All Destiny

### Login Enhancements

#### Feature Description:

In addition to an easier-to-navigate site Login page, site-level users can log in to their site from the district Welcome page.

#### Feature Information:

To log in as a site-level user on the district Welcome page:

1. On the district Welcome page, click **Login**.

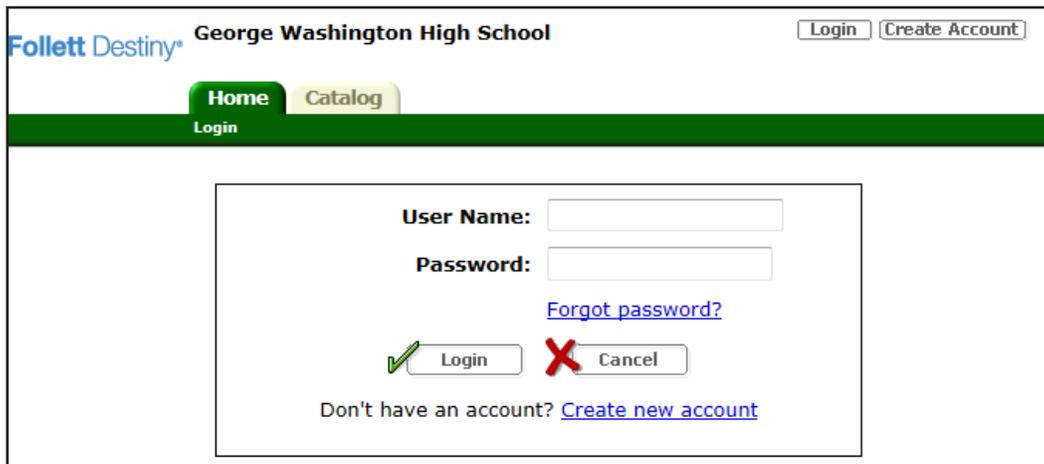

2. Enter your username and password.

3. Click **Login**.

After a successful login, your site opens.

On the site login page, the 'Log in to Destiny' tab and the Create New Account tab are merged into one panel. The functionality is still the same, but the navigation is more streamlined for you and your patrons.

#### Importance:

Logging in is easier than ever before for site-level patrons.

## All Destiny

### British Region Format Support

#### Feature Description:

To better serve international customers, Destiny supports British currency, date, and time formats.

#### Feature Information:

To configure the region format:

1. Select **district Welcome page > Setup > Update District Sites > Edit <district name>**.
2. From the **Region Format** drop-down, select **English (United Kingdom)**.
3. Click **Save**.

<b>Region Format</b>	English (United States) ▾
<b>Fine Currency</b>	<div style="border: 1px solid black; padding: 2px;">           Catalan (Spain) ▾            Dutch (Belgium)            Dutch (Netherlands)            English (Australia)            English (Canada)            English (Ireland)  <b>English (United Kingdom)</b> ←            English (United States)            Finnish (Finland)            French (Belgium)            French (Canada)            French (France)            French (Luxembourg)            German (Austria)            German (Germany)            German (Luxembourg)            Italian (Italy)            Portuguese (Portugal)            Spanish (Argentina)            Spanish (Mexico)            Spanish (Spain)            Turkish (Turkey)         </div>

In addition to the date format changing to dd/mm/yyyy, the currency symbol for the British pound, £, appears in the following places in Destiny:

- Library Copy Purchase Price
- Library Copy Estimated Value
- Resource Replacement Price
- Resource Item Purchase Price
- Resource Item Salvage Value
- Textbook Replacement Price
- Textbook Copy Purchase Price
- Textbook Copy Conditioned Price

#### Importance:

Customers in Great Britain can generate reports displaying their native currency symbol.

## All Destiny

### Follett Messages

#### Feature Description:

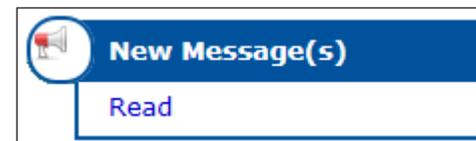

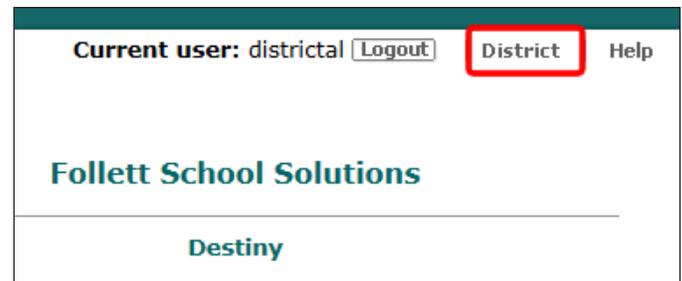

Destiny staff users receive messages directly from Follett regarding important news, updates, and training opportunities.

#### Feature Information:

When a new message is available for you, an alert icon and box appear next to the tabs in Destiny upon login. The alert box persists until you open it. When you close the message, a link remains until the next new message is available. When you click the link, the message opens to display the latest news.

To access Follett news:

1. Log in to Destiny.
2. If you are a district user, click **District** or, depending on your permissions, click a school.
3. To open the message, click **Read**.
4. After you've read the message, click **X** to close the message.
5. To re-open the message, click **Messages**.

#### Permissions:

*View Follett news*

#### Importance:

Destiny staff users can receive important information from Follett, such as new releases and features.

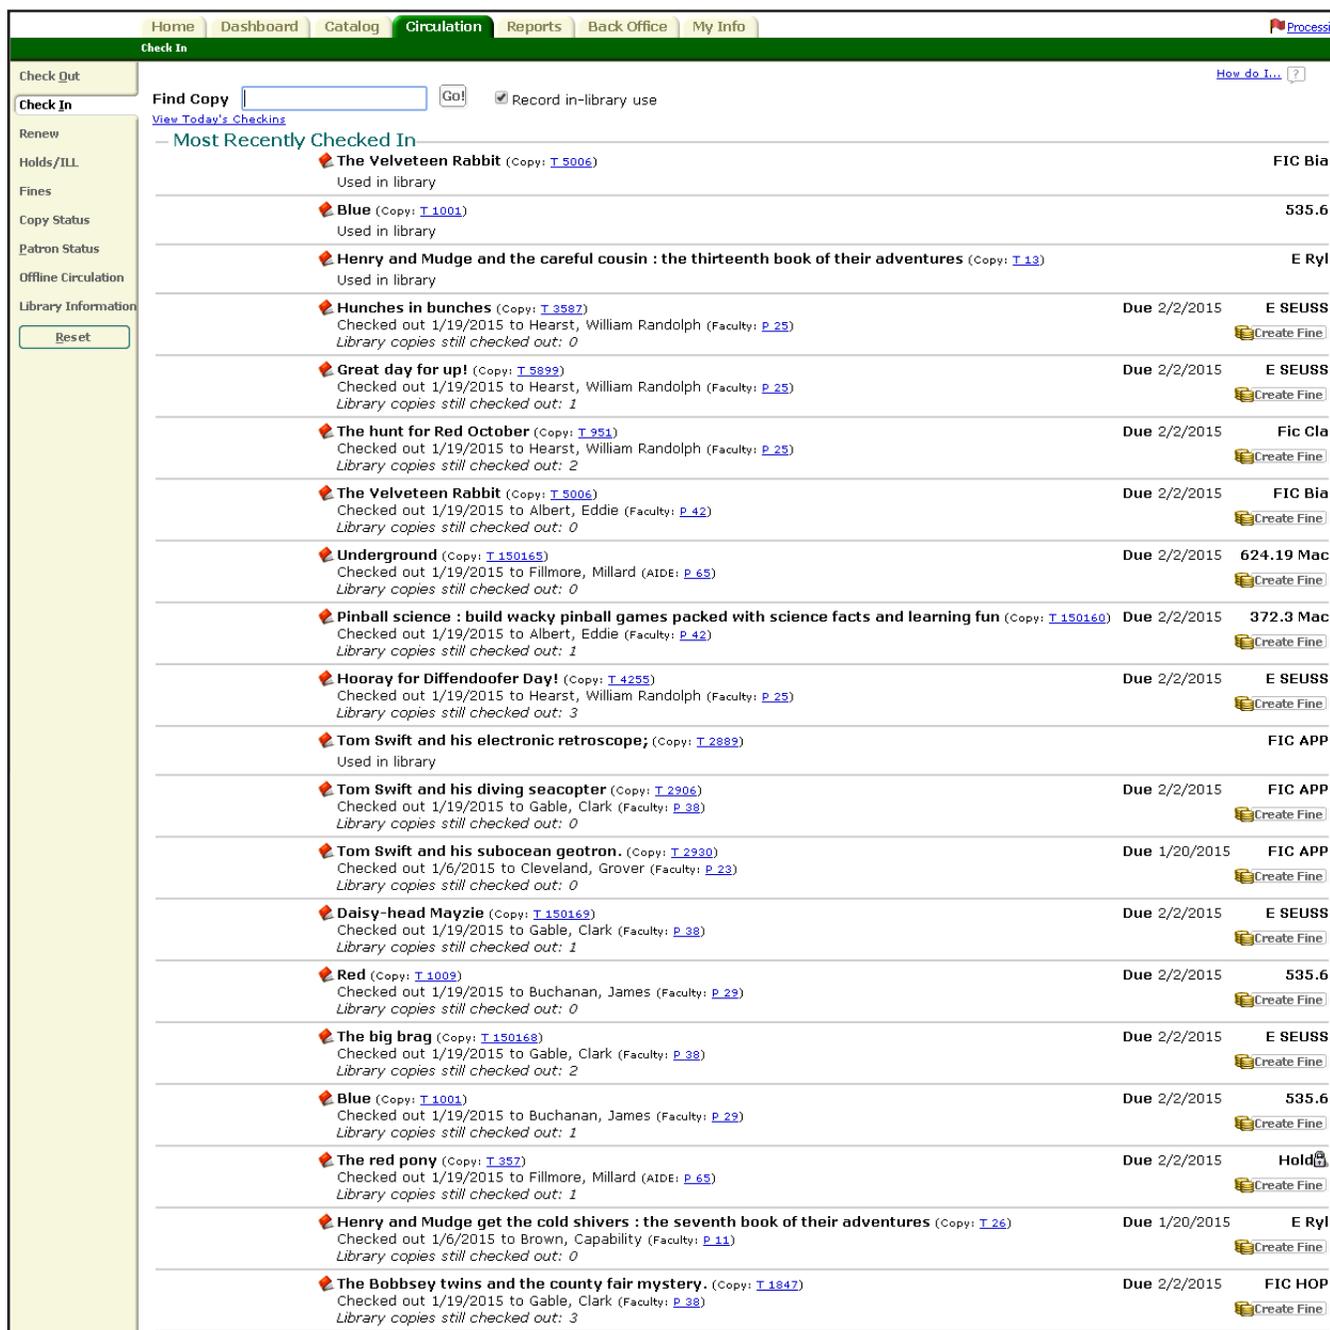

## Library Manager

### Check In Enhancements

#### Feature Description:

To avoid a backlog of returns when an entire class comes to the library, Ready Scan lets you check in materials faster than ever before. Additionally, you see the 20 most recent checkins in the **Most Recently Checked In** list.

The screenshot shows the 'Check In' interface in a library management system. At the top, there are navigation tabs: Home, Dashboard, Catalog, Circulation (active), Reports, Back Office, and My Info. Below the tabs, there's a 'Check In' section with a search bar for 'Find Copy', a 'Go!' button, and a checkbox for 'Record in-library use'. A 'View Today's Checkins' link is also present. The main area displays a list titled 'Most Recently Checked In' with 20 entries. Each entry includes a book title, its status (e.g., 'Used in library' or 'Checked out'), due date, and a 'Create Fine' button. The left sidebar contains various library management options like 'Check Out', 'Renew', 'Holds/ILL', 'Fines', 'Copy Status', 'Patron Status', 'Offline Circulation', and 'Library Information' with a 'Reset' button.

## Feature Information:

By default, Ready Scan is enabled in Library Manager. To disable Ready Scan, use the following steps:

1. Select **Back Office > Site Configuration > Circulation**.
2. In the Library Options section, deselect the '**Turn on Ready Scan Check In functionality**' checkbox.
3. Click **Save**.

The screenshot shows the 'Library Options' configuration page. The 'Circulation' tab is selected. The page contains several checkboxes and a text input field. The checkbox for 'Turn on Ready Scan Check In functionality' is highlighted with a red rectangular box. Other visible options include 'Allow library materials to circulate to all patrons in the district', 'Calculate library loan periods based on open days', 'Automatically calculate fines for overdue items', 'Require explanation when waiving library fine', 'Require explanation when issuing library refunds', 'Automatically create fine for lost library materials', and '"Lost" library materials must be returned in a timely fashion to generate a refund' with a value of 180 days. A 'Save' button is located in the top right corner.

## Importance:

The checkin enhancements save you time when scanning a large number of returns at once, and help ensure you check all the materials in.

## Library Manager

### Daily Checkins Report

#### Feature Description:

You can generate a report of today's checkins to quickly see a list of the day's checkins.

Today's Library Checkins (2/5/2015)						
Time	Call Number	Barcode	Title	Patron Name	Patron Barcode	Scanned By
10:49 AM	636.7 LUD	T 7860	The nature of dogs : photographs	Lee Anderson	LANDERSON	Site Administrator
10:51 AM	636.7 MIL	T 2051	Be the pack leader : use Cesar's way to transform your dog-- and your life	Lee Anderson	LANDERSON	Site Administrator
10:52 AM	332.64 DAV	T 2565	The bull and the bear : how stock markets work	Sue Christensen	P 6326	Site Administrator
10:54 AM	629.222 HOL	T 1009	The A-Z of cars	Walter Payton	2110205062	Site Administrator
10:56 AM	Fic McC	T 12056	Dragonsong	Stefan Bellows	2010001688	Site Administrator
<b>Total Circulations: 5</b>						

Report generated on 2/5/2015 at 10:56 AM

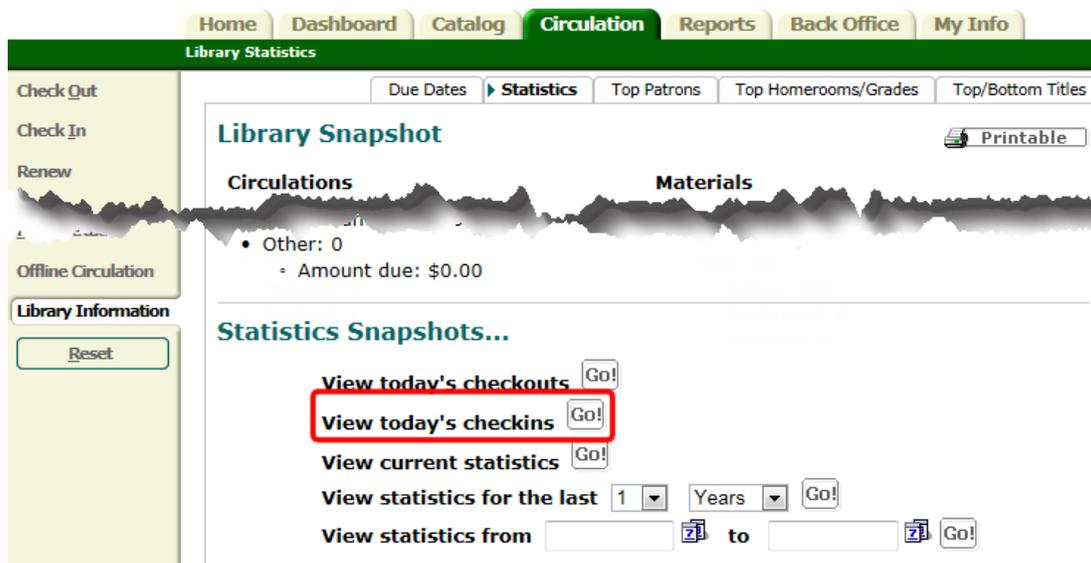

#### Feature Information:

There are three ways to access the report:

- **Circulation > Check In > View Today's Checkins**

- **Circulation > Library Information > Statistics**

- **Reports > Library Reports > Library Statistics**

The screenshot shows the 'Library Statistics' page. At the top, there are navigation tabs: Home, Dashboard, Catalog, Circulation, Reports (highlighted), Back Office, and My Info. Below the tabs is a breadcrumb trail: Library Reports > Library Statistics. On the left, there is a sidebar with 'My Favorites' and a list of reports: Library Reports (highlighted), Patron Reports, Report Builder, and Report Manager. The main content area is titled 'Library Snapshot' and includes a 'Printable' button. It is divided into two columns: 'Circulations' and 'Materials'. The 'Circulations' section lists: Checked Out: 79 (with a sub-item Overdue: 79), Lost: 14, and Amount due: \$0.00. The 'Materials' section lists: Titles: 12,336, Copies: 11,391, and Titles without copies: 1,217. Below these sections is a 'Statistics Snapshots...' section with several links: 'View today's checkouts' (with a 'Go!' button), 'View today's checkins' (with a 'Go!' button and a red box around it), 'View current statistics' (with a 'Go!' button), 'View statistics for the last' (with a dropdown menu set to '1' and a 'Years' dropdown), and 'View statistics from' (with two date input fields and 'Go!' buttons).

The Daily Checkins report lists the following information for each checkin:

- Time of transaction
- Copy call number
- Copy barcode number
- Title
- Patron name
- Patron barcode number
- Circulation desk staff member checking in the copies

The list does not include checkins uploaded in Offline Circulation.

If you need a report on checkins from a prior day, you can run a Copy Transaction Data report

### Importance:

Library administrators can quickly access a list of the day's checkins.

## Library Manager

### One Search Database Usage Report Enhancement

#### Feature Description:

You can limit the One Search Database usage report to a specific date range.

#### Feature Information:

To generate the One Search Database Usage report:

1. Select **Reports > Library Reports > One Search Database Usage**.

The screenshot shows the 'Library Reports' section of the Destiny 12.5 interface. The navigation menu on the left includes 'My Favorites', 'Library Reports', 'Patron Reports', 'Report Builder', and 'Report Manager'. The main content area is titled 'Catalog -- Titles & Copies' and lists several report options, each with a 'More' link. The 'One Search Database Usage' report is highlighted with a red box. Below this section is a 'Statistics' section with more report options.

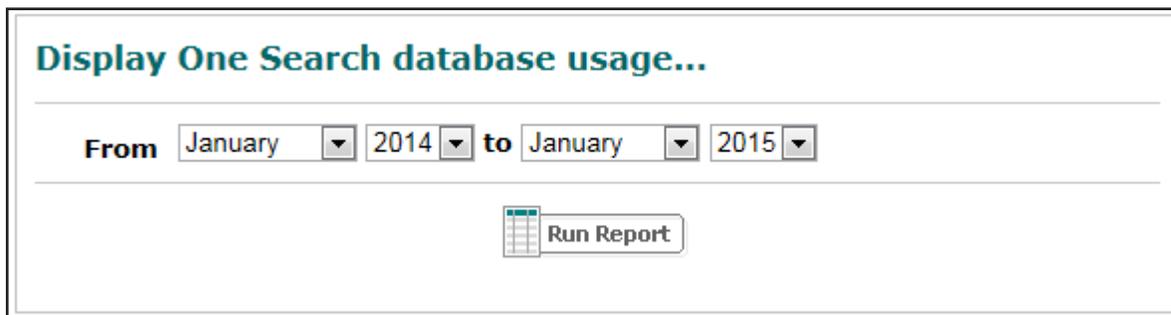

**Library Reports**

- [Barcode Lists](#) - Identify used and unused copy barcodes. [More](#)
- [Bibliography](#) - Create reading lists for curriculum or promotion. [More](#)
- [Call Number Reports](#) - Identify copies that may be incorrectly cataloged. [More](#)
- [Headings without Authority](#) - Identify "unauthorized" authors, subjects, and series. [More](#)
- [Missouri Report](#) - Report on Fiction, Visual, and Reference/Non-Fiction resources. [More](#)
- [Miscellaneous Labels](#) - Create new or replacement reading program labels. [More](#)
- [Spine/Pocket Labels](#) - Create new or replacement spine/pocket labels. [More](#)

**Statistics**

- [Collection Statistics - Historical](#) - Examine circulation statistics for a particular timeframe. [More](#)
- [Collection Statistics - Summary](#) - Examine current circulation, age, and value statistics. [More](#)
- [Copy Transaction Data](#) - Extract XML containing transactions in a date range. [More](#)
- [Hold Statistics](#) - Identify titles in high demand based on the holds placed. [More](#)
- [Library Statistics](#) - View a snapshot of the state of the library plus statistics. [More](#)
- [One Search Database Usage](#) - Identify the databases in highest and lowest demand. [More](#)
- [Search Statistics](#) - Examine how patrons are searching the library. [More](#)
- [Standards Search Statistics](#) - Examine how patrons are searching Standards. [More](#)
- [Title/Copy Data](#) - Extract XML containing titles/copies in a call number range. [More](#)
- [Top Homerooms/Grades](#) - View a list of the homerooms or grade levels with the most circulations. [More](#)
- [Top Patrons](#) - View a list of the patrons with the most circulations. [More](#)
- [Top/Bottom Titles](#) - View a list of the titles with the most or least circulations. [More](#)
- [WebPath Express Statistics](#) - Examine how patrons are searching WebPath Express. [More](#)

2. Select the date range for the report from the **From** and **to** drop-downs.
3. Click **Run Report**.

**Display One Search database usage...**

**From** January 2014 **to** January 2015

 Run Report

The report opens in a new tab or window.

#### Importance:

Library administrators have more data to support database subscription renewals and to bring more attention to their databases available through Destiny.

## Library Manager

### Searching for ILL Materials Enhancement

#### Feature Description:

When you conduct a Holds/ILL search for an item, you now receive all search results. Destiny shows 25 results per page, or you can click **Show All** to view all the results on one page.

#### Feature Information:

To view all search results in **Circulation > Holds/ILL**:

1. Select **Circulation > Holds/ILL**.
2. Scan or type the patron's barcode in the **Find Patron** field.
3. Click **Add Hold**.
4. In the **Find Title** field, type a title keyword.
5. Select **All Participating Libraries** from the **in** drop-down.
6. Click **Go!**.
7. Click **Show All**.

8. Finish placing the ILL as usual.

#### Importance:

Library staff can conduct a more complete search for items they need when conducting a Holds/ILL search.

## Library Manager

### Packing List for ILLs

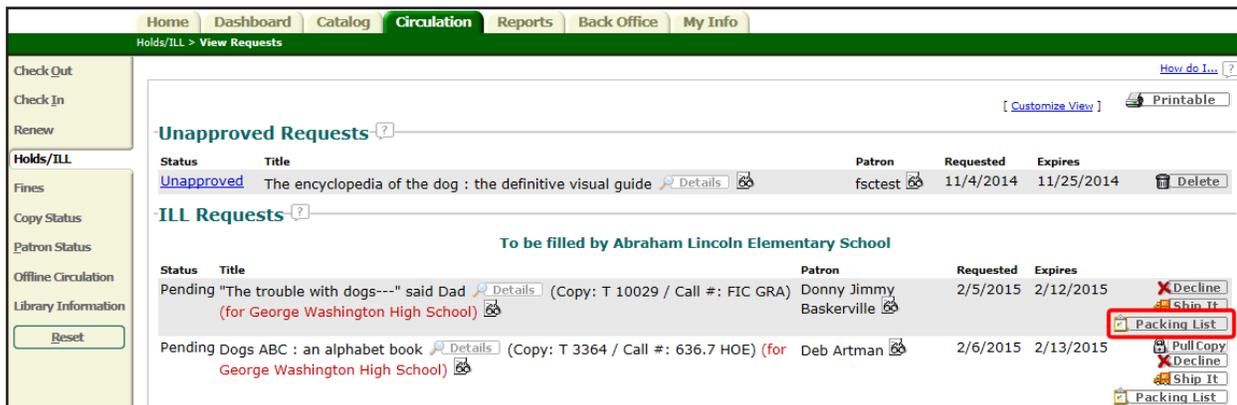

#### Feature Description:

To help library staff members identify the patron who requested the material, you can print a packing slip listing the title, barcode, and call number of the requested item, and the patron's name and barcode.

#### Feature Information:

To print a packing list for an ILL:

1. Select **Circulation > Holds/ILL > View requests**.
2. In the 'To be filled by [local school name]\' section, click **Packing List**.

The screenshot shows the 'View Requests' page in the Destiny 12.5 Library Manager. The navigation bar includes Home, Dashboard, Catalog, Circulation, Reports, Back Office, and My Info. The left sidebar contains options like Check Out, Check In, Renew, Holds/ILL, Fines, Copy Status, Patron Status, Offline Circulation, and Library Information. The main content area is divided into 'Unapproved Requests' and 'ILL Requests'. Under 'ILL Requests', there is a section titled 'To be filled by Abraham Lincoln Elementary School'. A table lists two pending requests. The second request, 'Pending Dogs ABC : an alphabet book', has a 'Packing List' button highlighted with a red box.

Status	Title	Patron	Requested	Expires	
Unapproved	The encyclopedia of the dog : the definitive visual guide	fsctest	11/4/2014	11/25/2014	Delete
<b>To be filled by Abraham Lincoln Elementary School</b>					
Pending	"The trouble with dogs---" said Dad (for George Washington High School)	Donny Jimmy Baskerville	2/5/2015	2/12/2015	Decline, Ship It
Pending	Dogs ABC : an alphabet book (for George Washington High School)	Deb Artman	2/6/2015	2/13/2015	Packing List, Pull Copy, Decline, Ship It

3. The Job Manager opens. When the Packing List is complete, click **View**.
4. On the PDF that opens, click .
5. Place the printed packing list with the item being sent to the requesting library.

Packing List	
Lending Site:	Abraham Lincoln Elementary School
Borrowing Site:	George Washington High School
Patron:	Baskerville, Donny Jimmy
Barcode:	2010001690
Call #:	FIC GRA
Title:	"The trouble with dogs---" said Dad
Barcode:	T 10029

#### Importance:

Packing lists let staff at the requesting library easily identify which patron requested each ILL.

## Library Manager

### Email Notifications for Holds/ILL Requests

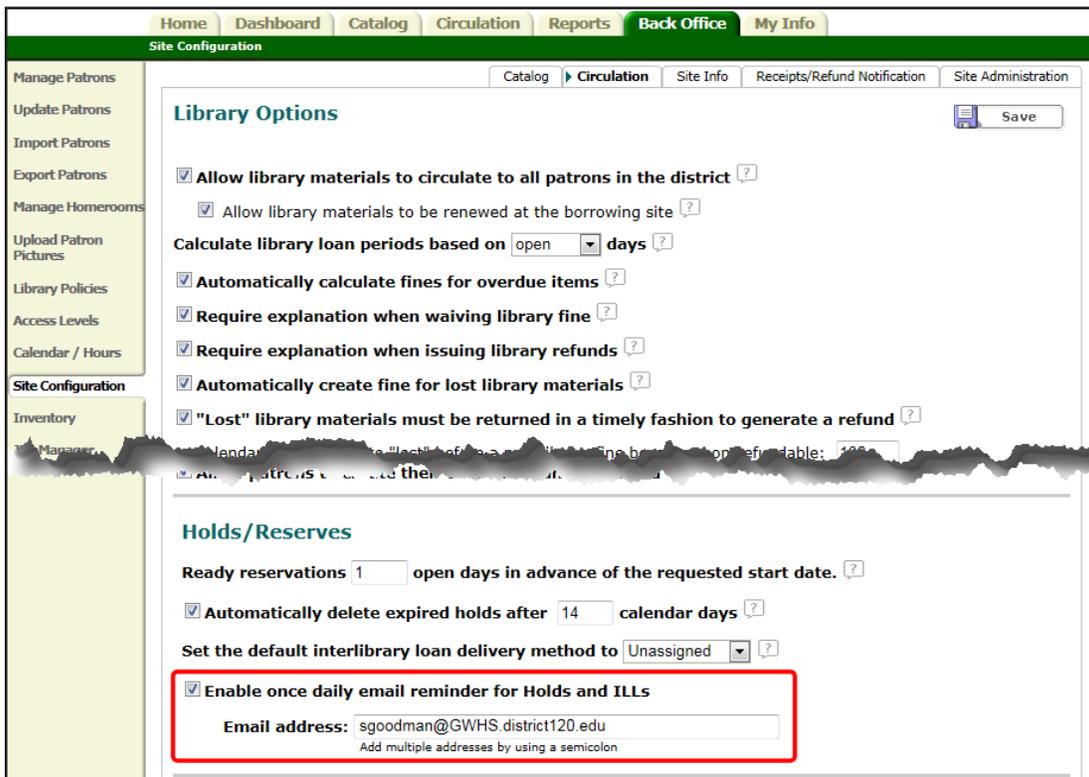

#### Feature Description:

Site administrators can enter one or more email addresses so that staff can receive notification about holds and ILLs that need to be processed.

#### Feature Information:

To set up email notifications for holds and ILLs:

1. Select **Back Office > Site Configuration > Circulation**.
2. In the Holds/Reserves section, select the **Enable once daily email reminders for Holds and ILLs** checkbox.

The screenshot shows the 'Library Options' and 'Holds/Reserves' sections of the Destiny 12.5 interface. The 'Library Options' section includes several checkboxes, all of which are checked: 'Allow library materials to circulate to all patrons in the district', 'Allow library materials to be renewed at the borrowing site', 'Automatically calculate fines for overdue items', 'Require explanation when waiving library fine', 'Require explanation when issuing library refunds', 'Automatically create fine for lost library materials', and '"Lost" library materials must be returned in a timely fashion to generate a refund'. The 'Holds/Reserves' section includes fields for 'Ready reservations' (1), 'open days in advance of the requested start date', 'Automatically delete expired holds after' (14), 'calendar days', and 'Set the default interlibrary loan delivery method to' (Unassigned). The 'Enable once daily email reminder for Holds and ILLs' checkbox is checked and highlighted with a red box. Below this checkbox is an 'Email address' field containing 'sgoodman@GWHS.district120.edu' and a note: 'Add multiple addresses by using a semicolon'.

3. In the **Email address** field, type one or more email addresses of the recipients of the notifications, separated by a semi-colon.
4. Click **Save**.

**Note:** You can stop the emails, but preserve the addresses, by deselecting the checkbox. You might do this to ensure staff are not getting emails over school breaks.

The Daily Holds Processor job that runs nightly sends out the email(s) if there are hold or ILL requests that need processing. You can review the Daily Holds Processor job summary in the **Back Office > Job Manager**.

**Importance:**

ILL requests will be processed quickly and transfers in the district can occur in a timely manner.

## Library Manager

### Delete Pending ILL Requests

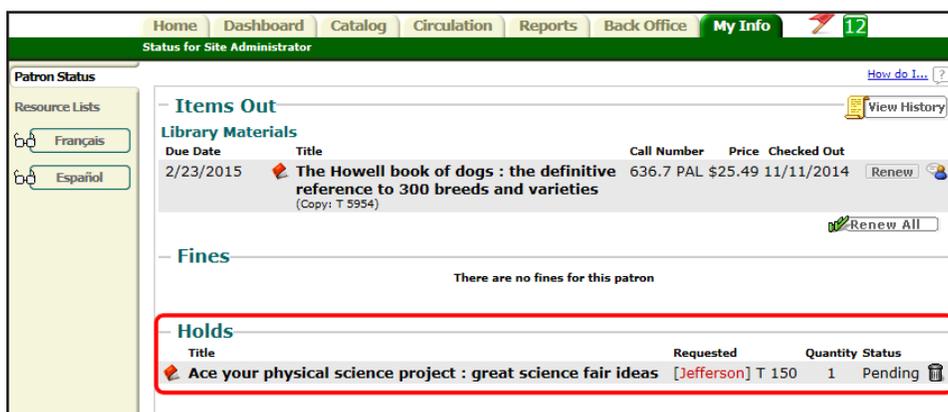

#### Feature Description:

Staff members at the requesting library, and their patrons with access to My Info, can cancel a pending ILL request.

#### Feature Information:

To delete a pending ILL request from My Info:

1. Select **My Info**.
2. Next to the pending ILL request you want to delete, click .

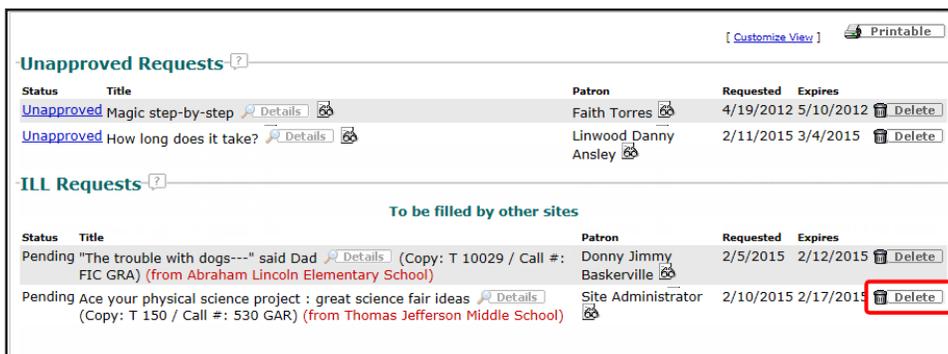

The screenshot shows the 'My Info' page for a site administrator. The 'Holds' section is highlighted with a red box, showing a pending ILL request for the title 'Ace your physical science project : great science fair ideas' with a trash icon next to it.

3. When the confirmation message appears, click **Yes**.

Library staff members at the requesting school can delete a pending ILL request for a patron. Use the following steps to delete a pending ILL request:

1. Select **Circulation > Holds/ILL > View Requests**.
2. Next to the request you want to delete, click **Delete**.

The screenshot shows the 'View Requests' page. Under the 'ILL Requests' section, a table lists pending requests. A red box highlights the 'Delete' button next to the request for 'Ace your physical science project : great science fair ideas'.

3. When the confirmation message appears, click **Yes**.

**Importance:**

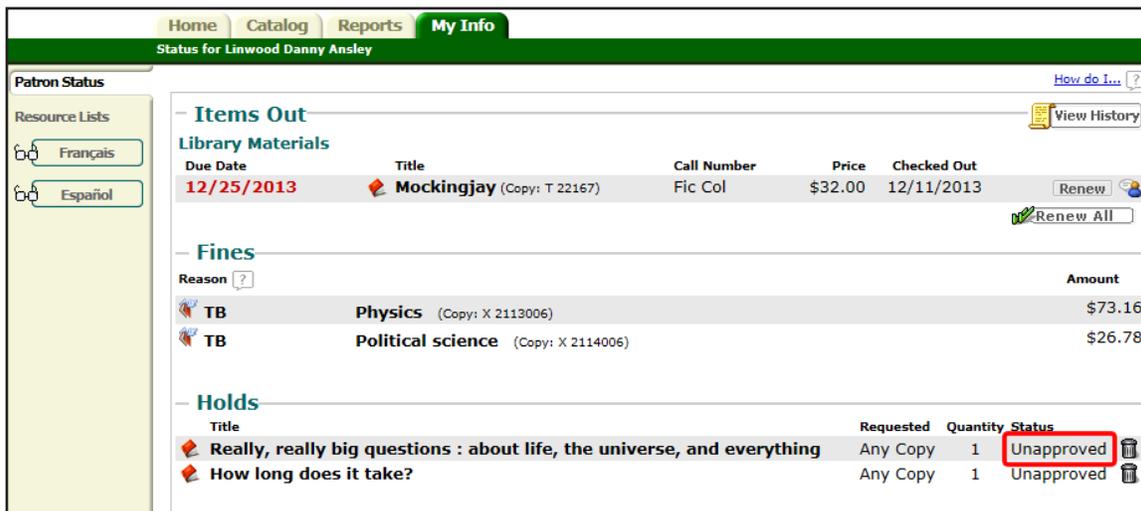

Library staff and your patrons can cancel a pending request before the lending school processes the request, saving the district any unnecessary transfers.

## Library Manager

### View Unapproved ILL Requests

#### Feature Description:

Your patrons see a status of 'Unapproved' in MyInfo for any ILL requests that are not yet approved.

The screenshot shows the 'My Info' page for a patron named Linwood Danny Ansley. The page is divided into several sections: Patron Status, Resource Lists (with buttons for Français and Español), Items Out, Library Materials, Fines, and Holds. The 'Holds' section contains a table with the following data:

Title	Requested	Quantity	Status
Really, really big questions : about life, the universe, and everything	Any Copy	1	Unapproved
How long does it take?	Any Copy	1	Unapproved

#### Importance:

Your patrons know the exact status of their request from the beginning of the process.

## Library Manager

### Provide a Note for Declined ILL Requests

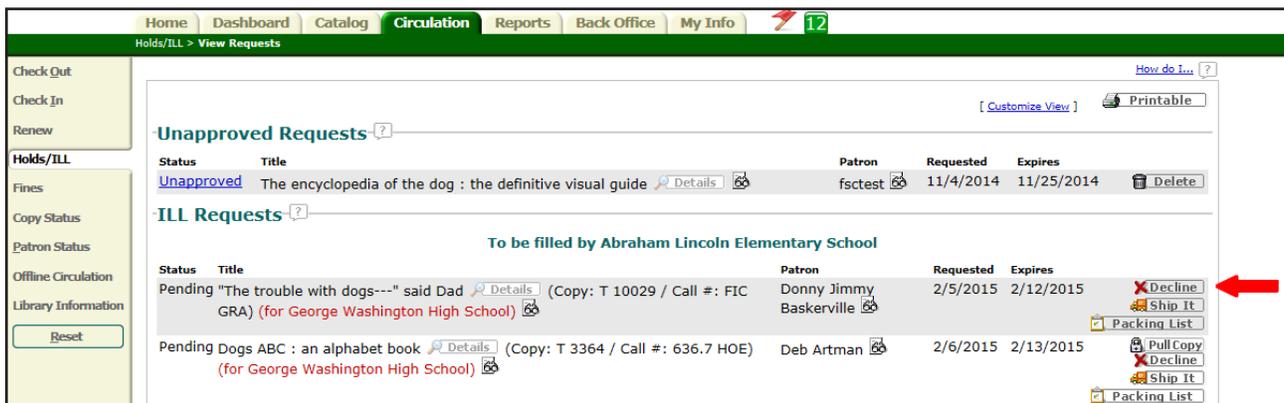

#### Feature Description:

When declining an ILL request, staff members at the lending library can provide an explanation to the requesting library.

#### Feature Information:

To provide a note when declining an ILL request:

1. Select **Circulation > Holds/ILL > View Requests** or   > **View Hold Requests** (if you have other items that need processing, such as requests or recommendations) > **Unapproved Requests**.
2. Next to the ILL request you want to decline, click **Decline**.

The screenshot shows the 'Circulation' tab in the Destiny 12.5 Library Manager. The 'Unapproved Requests' section is visible, along with the 'ILL Requests' section. The 'ILL Requests' section is titled 'To be filled by Abraham Lincoln Elementary School'. A table lists pending ILL requests with columns for Status, Title, Patron, Requested, and Expires. A red arrow points to the 'Decline' button for the first pending request.

Status	Title	Patron	Requested	Expires	Actions
Unapproved	The encyclopedia of the dog : the definitive visual guide	fsctest	11/4/2014	11/25/2014	Delete
<b>To be filled by Abraham Lincoln Elementary School</b>					
Pending	"The trouble with dogs---" said Dad (Copy: T 10029 / Call #: FIC GRA) (for George Washington High School)	Donny Jimmy Baskerville	2/5/2015	2/12/2015	Decline, Ship It, Packing List
Pending	Dogs ABC : an alphabet book (Copy: T 3364 / Call #: 636.7 HOE) (for George Washington High School)	Deb Artman	2/6/2015	2/13/2015	Pull Copy, Decline, Ship It, Packing List

3. When the message box appears, type an explanation for declining the request.

4. Click **Yes**.

#### Importance:

Library staff at a requesting library can now see why the other libraries declined their ILL request.

## Library Manager

### Audiobook Support

#### Feature Description:

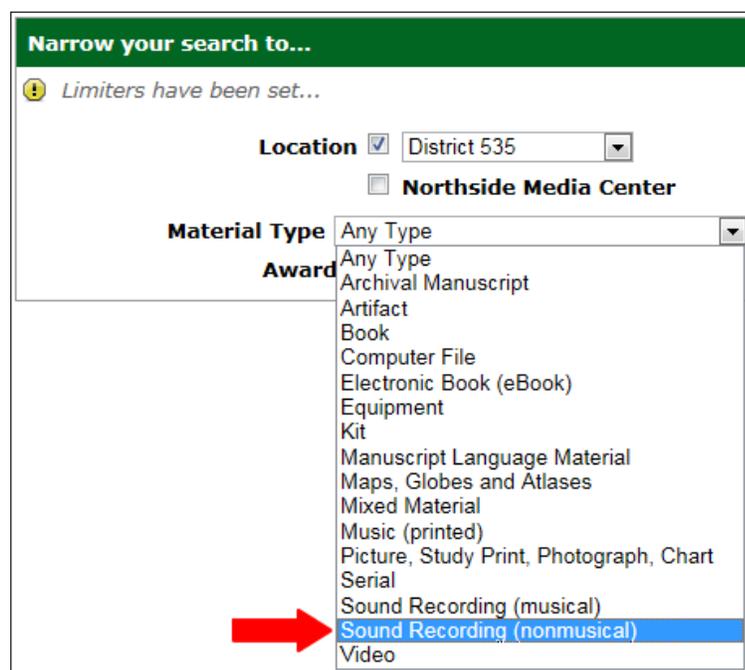

Library Manager displays the material type, Sound Recording (non-musical), instead of Audiobook. Follett Audiobooks still appear as Follett Audiobooks.

Follett Audiobook and publisher-hosted audiobook Material Type Icon	Recorded Sound (non-musical) Material Type Icon
	

#### Feature Information:

To search for non-musical sound recordings:

1. Select **Catalog > Library Search > Basic** or **Power**.
2. From the **Material Type** drop-down, select **Sound Recording (non-musical)**.
3. If you are looking for just Follett Audiobooks, select the **Limit to Follett Audiobooks** checkbox.
4. Set any other limiters you want.
5. Type your search term, and then click the appropriate search button.

The search results appear, limited to the material type you chose. Click **Play** next to a Follett Audiobook to open it.

#### Importance:

To more completely and accurately catalog your materials, Library Manager uses the material type Sound Recording (non-musical) for audiobooks.

## Library Manager

### Universal Search Update

#### Feature Description:

Universal Search made it easier for your patrons to track the resources they use and create citation lists by integrating with EasyBib, all while maintaining access level permissions from Destiny.

#### Feature Information:

The new updates to Universal Search include the following:

- Patrons need the 'Access library checkout history' permission to view their History in their Bookbag.
- Patrons who log in to Universal Search can now have a resource list, Favorites, in their Bookbag.
- Universal Search integrates with EasyBib, an online citation tool, to let patrons generate a citation for an individual item from its Title Details page or a citation list for their Favorites list.
- The material type Sound Recording (non-musical) is listed as Recorded Sound if it has no subtype. If it does have a subtype, it is listed as Nonmusical - <subtype> in the Narrow By list.

For more information about the Universal Search updates, please view the [What's New in Universal Search](#) video.

#### Importance:

Your patrons can now add resources to a Favorites list in their Bookbag, and then use that list to create a citation list.

## Resource Manager

### Report Builder for Textbook Resources

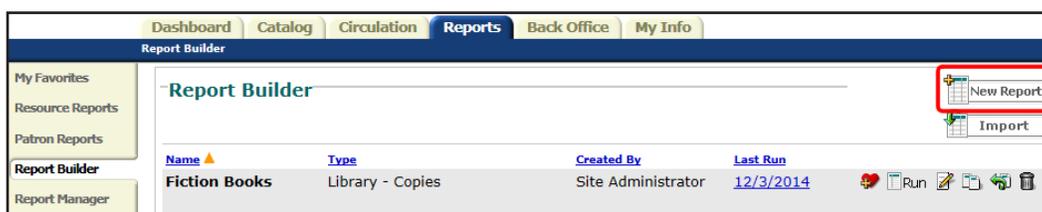

#### Feature Description:

You can now generate 'Names' and 'Items' reports for textbooks in Report Builder.

#### Feature Information:

To build a Names report on textbook resources:

1. Select **Reports > Report Builder > New Report**.

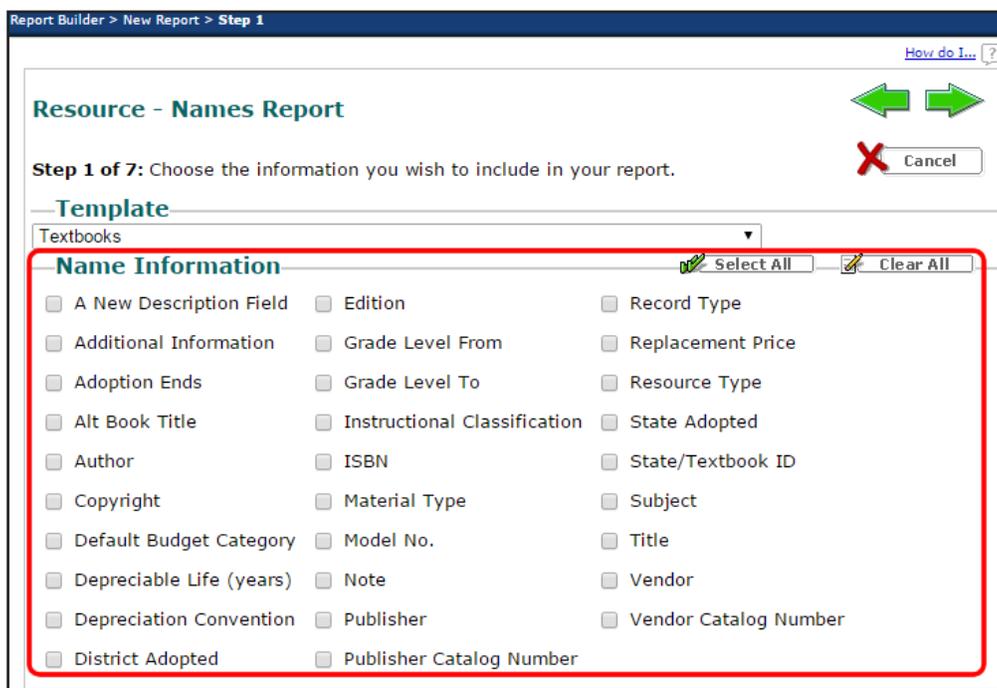

2. On the New Report page, select **Resource** from the drop-down.

3. Select **Names**.

4. Click the **Next** arrow.

5. From the Template drop-down, select **Textbooks**.

6. Select the fields you want on your report.

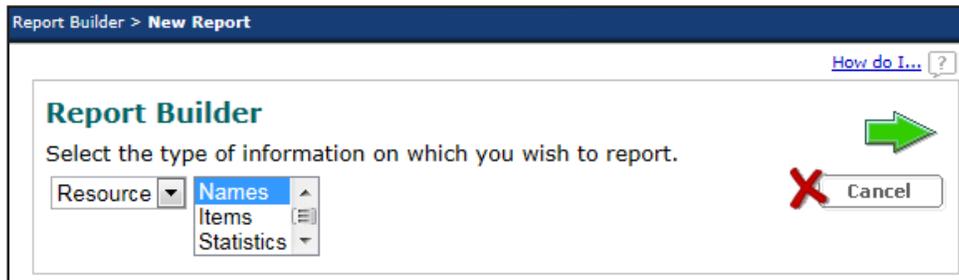

7. Complete the remaining Report Builder steps as usual.

8. Click **Save** or **Save & Run** to generate the report.

To build an Items report on textbook resources:

1. Select **Reports > Report Builder > New Report**.

2. On the New Report page, select **Resource** from the drop-down.

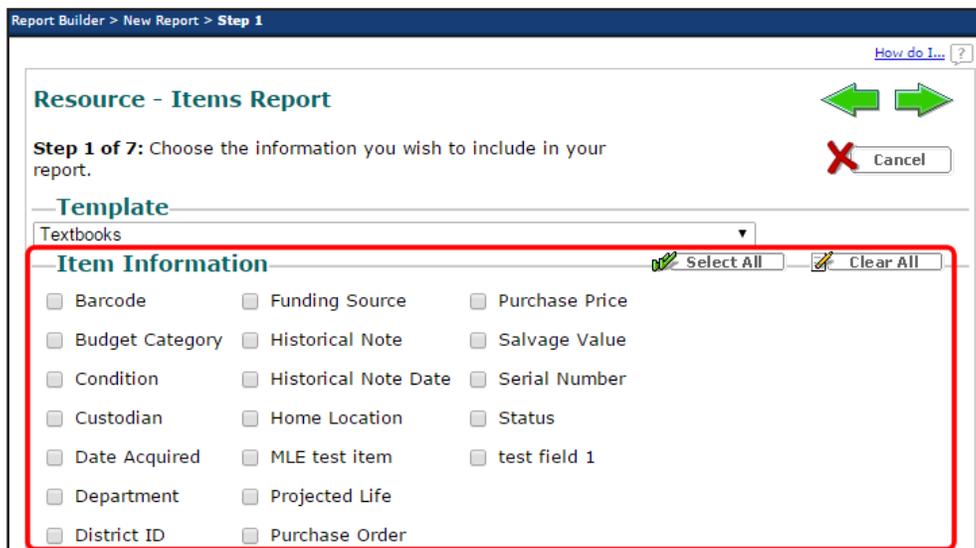

3. Select **Items**.

4. Click the **Next** arrow.

5. From the Template drop-down, select **Textbooks**.

6. Select the fields you want on your report.

7. Complete the remaining Report Builder steps as usual.

8. Click **Save** or **Save & Run** to generate the report.

### Importance:

The new options in Report Builder let you include the default system-generated fields in the textbook description and item records in your reports.

## Media Manager

### Ceiling Date for Bookings

#### Feature Description:

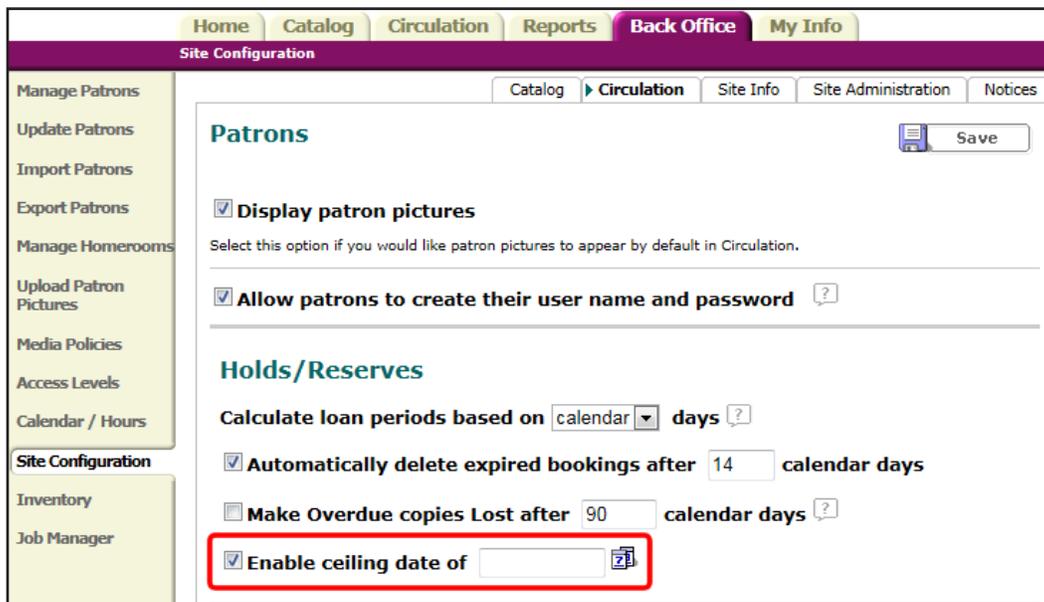

To ensure materials are not booked out after a specific date, Media Manager administrators can configure a ceiling date.

#### Feature Information:

A ceiling date overrides the due date if the ceiling date is earlier than the due date. For example, you might set a ceiling date for the last day of the school year so all items are due by the end of the school year. Destiny automatically increments the year but not the month or day, so you need to verify the ceiling date each year.

To configure a ceiling date:

1. Select **Back Office > Site Configuration > Circulation**.

The screenshot shows the 'Patrons' configuration page in the Destiny 12.5 interface. The page is titled 'Patrons' and has a 'Save' button in the top right corner. The page is divided into several sections:

- Patrons**
  - Display patron pictures**  
Select this option if you would like patron pictures to appear by default in Circulation.
  - Allow patrons to create their user name and password** 
- Holds/Reserves**
  - Calculate loan periods based on   
  - Automatically delete expired bookings after**  **calendar days**
  - Make Overdue copies Lost after**  **calendar days** 
  - Enable ceiling date of**  

The 'Enable ceiling date of' checkbox and its associated text field are highlighted with a red box in the screenshot.

2. Select the **Enable ceiling date** checkbox.
3. Type the ceiling date in the field. Or, click the  and select the date.
4. Click **Save**.

Once you set a ceiling date, patrons and staff members can no longer select a date that is after the ceiling date when booking materials.

#### Importance:

Media administrators can now ensure all booked materials are returned by a specific date, such as the last day of the school year.

# Appendix

With the transition to Destiny Resource Manager, there are some changes to the names of access level permissions and a few new permissions. The following table details the changes, permission by permission.
