

# April Math Mission Possible

2<sup>nd</sup> and 3<sup>rd</sup> Grades

Give Away!

Have 364 jellybeans and give  
188 to Friends OR have  
281 jellybeans and give  
137 to friends?

Do some mathematical thinking to decide which you'd rather have!

Share your answer AND explain how you decided using numbers, pictures and/or words.

You can send a picture of your work to [aballard@everettsd.org](mailto:aballard@everettsd.org), OR share it with Allison Ballard as a Google doc or slide.
