Dear Parent / Guardian:

Few things are better than relaxing on a summer day with a good book. Research overwhelmingly shows that reading over the summer break is essential to maintaining and improving a student's literacy levels.

With that in mind, we'd like to remind you of Everett Public Schools Summer Reading Program requirements and the opportunities available to your student.

Included in this brochure you will find your student's grade or course level reading list and other information about our Summer Reading Program. Your student should choose and read at least one book that sounds interesting from their list, this is a requirement. Then read as many other books of their choice as they wish. They should feel free to read outside the list after finishing their one book from the list.

Each time your student finishes a book (our expectation is that they finish at least one off the required list), they should take an Accelerated Reader (AR) test for that book. They can link to AR tests on any connected device by visiting their school's district website. Students will be eligible for rewards after reading and passing AR tests for two books, three books, and more than three books.

The district has partnered with our local public libraries to ensure that copies of our listed books will be readily available both in print and in digital format.

We hope that your summer is full of joy and great reads!

### Entering Grade 6 – Required Book

#### Wonder by R.J. Palacio

Wonder books will be available to check out from your elementary library in June. You may return the book to the elementary library or your middle school library.

You may read one of the following books if you have already read *Wonder*.

#### El Deafo by Cece Bell

Going to school and making new friends can be tough. But going to school and making new friends while wearing a bulky hearing aid strapped to your chest? That requires superpowers! In this funny, poignant graphic novel memoir, author/illustrator Cece Bell chronicles her hearing loss at a young age and her subsequent experiences with the Phonic Ear, a very powerful—and very awkward—hearing aid.

#### Ghost by Jason Reynolds

Ghost. Lu. Patina. Sunny. Four kids from wildly different backgrounds with personalities that are explosive when they clash. But they are also four kids chosen for an elite middle school track team—a team that could qualify them for the Junior Olympics if they can get their acts together. They all have a lot to lose, but they also have a lot to prove, not only to each other, but to themselves. Running. That's all Ghost (real name Castle Cranshaw) has ever known. But Ghost has been running for the wrong reasons—it all started with running away from his father, who, when Ghost was a very little boy, chased him and his mother through their apartment, then down the street, with a loaded gun, aiming to kill. Since then, Ghost has been the one causing problems—and running away from them—until he meets Coach, an ex-Olympic Medalist who sees something in Ghost: crazy natural talent. If Ghost can stay on track, literally and figuratively, he could be the best sprinter in the city. Can Ghost harness his raw talent for speed, or will his past finally catch up to him?

#### Lily and Dunkin by Donna Gephart

Lily Jo McGrother, born Timothy McGrother, is a girl. But being a girl is not so easy when you look like a boy. Especially when you're in the eighth grade. Dunkin Dorfman, birth name Norbert Dorfman, is dealing with bipolar disorder and has just moved from the New Jersey town he's called home for the past thirteen years. This would be hard enough, but the fact that he is also hiding from a painful secret makes it even worse. One summer morning, Lily Jo McGrother meets Dunkin Dorfman, and their lives forever change.

### Entering Grade 6 – continued

#### The Thing About Jellyfish by Ali Benjamin

Everyone says that it was an accident... that sometimes things "just happen". But Suzy won't believe it. Ever. After her best friend dies in a drowning accident, Suzy is convinced that the true cause of the tragedy was a rare jellyfish sting. Retreating into a silent world of imagination, she crafts a plan to prove her theory—even if it means traveling the globe, alone. Suzy's achingly heartfelt journey explores life, death, the astonishing wonder of the universe...and the potential for love and hope right next door.
