

Technology Expo

Tuesday, April 24, 2012
6:00 PM - 9:00 PM

On a rainy Tuesday afternoon, team members: Derek Bell, Mathias Siebenaler, Tyler Hittle, met in the team classroom to load the robot in the back of Mr. T's truck. We wrapped it up twice to protect it from the heavy rains. We were glad to have use of the bag and tag bag once again. Unloading the robot and setting it up in Kent was made so much easier with the help of team 2907!

During the event we had a steady stream of local area children driving the robot. We enjoyed balancing with 2907 and taking turns shooting baskets.

Mathias had great fun dancing with in the jester suit and drew happy crowds as always.

Helping to prepare for the event were:

Tyler Hittle – Student Lead

Derek Bell

Mathias Siebenaler

Attending the event were:

Lori Hittle

Connor Hittle

Tyler Hittle

Mathias Siebenaler

Maggie Thorleifson
