# School Profile & Decile Rank

## Henry M. Jackson

### HIGH SCHOOL PROFILE

#### Our Community

Spanning 39 square miles, Everett Public Schools serves the educational needs of over 20,000 students throughout 27 schools.

Rebounding from the 2020-21 school year, when all the top 25 Washington state school districts saw decreased enrollment, Everett Public Schools was one of only 12 districts in the top 25 to see enrollment growth in 2021-22, subsequently rising to rank 13th largest district in our state for the 2023-24 school year.

Our district's 27 schools include four high schools (grades 9-12), five middle schools (grades 6-8), and 18 elementary schools (grades K-5). Additionally, students in our district are served by various alternative learning options including our online program, which is one of Washington State's oldest and most successful virtual learning programs.

#### Our School

Henry M. Jackson High School (JHS) is a comprehensive four-year public school founded on the belief that all students can learn to a high standard.

Opened in 1994 in the rapidly growing community of Mill Creek, south of Everett, Jackson graduated its first senior class in 1997 and has grown to over 2,100 students. Jackson is currently rated as one of the best schools in the state, thanks to its robust course options and its student success on standardized testing, including state assessments and AP tests.

Since its inception, students, staff, and parents have worked collaboratively to develop and maintain an academic curriculum that supports and challenges all students.

#### Curriculum

Students at Henry M. Jackson High School typically earn 6.0 credits per year. The school year is divided into two semesters with six classes daily, each worth 0.5 credit. For the class of 2025, a total of 24 credits is required to receive a Henry M. Jackson High School diploma.

Online classes may be incorporated into the school day or, for a fee, may be taken to gain more than 6.0 credits during the school year.

*We encourage all students to pursue challenging options to better prepare them for post-secondary education, technical training, and careers.*

Students can access Advanced Placement classes at JHS in addition to college-level courses through Running Start, CTE Dual Credit, and College in the High School. JHS does not limit the number of AP classes that a student may take, and we encourage all students to pursue challenging options to better prepare them for success in post-secondary education, technical training, and careers.

The Sno-Isle TECH Skills Center, which serves 44 schools in the region, offers 20+ courses in five career pathways: business and marketing, human services, info tech, science and health, and trade and industry. Our students also have access to STEM programs at our other high schools as well as the Regional Apprenticeship Pathways program in neighboring Marysville School District. Additionally, Everett Public Schools students have the option of earning credit for approved work experience.

Since our school opened in 1994, it has been our mission to prepare students for success in college, career, and life. Although life for students has significantly changed in the last quarter-century, we continue to evolve our program to meet the needs of each student as we prepare them to be highly successful in jobs that currently exist, as well as those that may not yet exist using technologies that we cannot yet imagine. Ultimately, we want them to be prepared to meet the ever-changing challenges in our world today.

### 3. Standardized tests

**Notre Dame** is test-optional for all applicants through the 2025-26 school year, meaning ACT and/or SAT scores are not required. This policy applies to both first-year and transfer students. That said, significant quantitative evidence is typically demonstrated by our strongest applicants.

**Boston College** has a test-optional admission policy. Students who opt not to submit test scores will receive full consideration during our selection process.

**Columbia** is test-optional for applicants to Columbia College and Columbia Engineering.

### Standardized tests (not required)

UC eliminated its standardized test requirement in 2020.

**UC no longer considers SAT or ACT test scores when making admissions decisions or awarding scholarships.** Test scores

submitted as part of the application may be used as an alternate method of fulfilling minimum requirements for eligibility after matriculation at UC.

**NYU** will continue to remain test-optional through the 2025-2026 application cycle. For students who elect to submit testing as part of their application, NYU has one of the most flexible testing policies of any college or university.

UNIVERSITY OF

## Sending SAT Scores

When you registered for the SAT or took it in school, you might have selected colleges or scholarship programs to send your scores to. Once your score becomes available, you can send it along with information about yourself to additional institutions, or you can change the score recipients you chose during the test. If you didn't choose to send your scores to any colleges or scholarship programs on test day and want to after you test, or if you want to add additional recipients, follow the instructions below.

### Sending Your Scores

We get it—things change. While we still automatically send your scores from the ACT test to the places you requested when you registered (including both your high school and college score recipients), something may have changed since then. Maybe you've got your eye on a new college, have a chance at an unexpected scholarship, or accidentally left off the university you toured last semester.

You can have your ACT scores sent to other colleges and scholarship agencies, even after you test.

WUE

Western Undergraduate Exchange

### How does WUE work?

The Western Undergraduate Exchange (WUE) is a tuition savings program that makes attending out-of-state colleges and universities more affordable for students. Through WUE, you receive a reduced tuition rate, giving you more education options for your money.

Out-of-state tuition is expensive, sometimes two to three times the cost of in-state tuition. With WUE, participating public colleges and universities across the West agree to charge out-of-state students no more than 150% of the school's in-state tuition. Tuition savings may vary depending on the college or major. **The bottom line: You save big with WUE and almost always pay less than out-of-state tuition.**

170 institutions

\$12,517 average  
savings per student

### ATTEND COLLEGE IN THE WEST FOR LESS

### How do I get started?

1. **Check your eligibility** by home state/territory, college and major through our online WUE Savings Finder.
2. **Meet admissions requirements and deadlines** for the WUE college.
3. **Apply directly** to the college(s) of your choice.
4. **Contact the college** — it's the best source of information about how you can save money through WUE.

### **Sr. Year Understanding Financial Aid: the FAFSA & WASFA (Senior Families)**

Room: B204/B202

This session is designed specifically for senior families to demystify the FAFSA, WASFA, and overall financial aid process, providing clear guidance on how to access potential funding for college or other post-high school opportunities. Learn how completing these forms can unlock critical financial resources and ensure your student doesn't miss out on available support.

#### **Session 2 ONLY**

Suggested audience: Grade 12

Presenter: Sarah Pewitt, EPS HS & Beyond Plan Facilitator

### **Navigating the College Application Process** Room: Annex

What are colleges looking for on your application? What is the difference between Early Action and Regular Decision deadlines? When will you hear back from colleges? We are here to help breakdown the application process step by step for students and families! We will go through the applying process, the review process, and the decision timeline so you have a clear roadmap of this upcoming year of applying to colleges.

#### **Session 2 Only**

Suggested audience: Grades 11 & 12

Presenter: Karina Rodriguez, University of Washington-Bothell
