

March 21, 2025

Hello North Families,

It may seem early, but we are already beginning to plan for the 2025-2026 school year. We are excited for students to select their next year's courses including advanced classes that offer high school credit in 7th and 8th Grade. Please take time to review all these materials and discuss middle school course choices carefully. Your student's current teachers are a great resource when making class selections for next year.

Our student registration materials include this letter, a middle school course catalog and registration worksheet. Guidance on course registration, and advanced pathways can be found in the middle school course catalog. Students and parents should review the course catalog to find grade level information and resources for planning next year's course choices. Please contact one of our counselors or administrators with any questions.

- Students must complete a registration worksheet and return to 2nd period teacher prior to Friday, March 28th.
- On March 28th, students will enter registration selections into Home Access Center during the school day (STAR period).
- Students must select a minimum of one semester of a visual/performing arts (VPA) course.
- Elective choices are not guaranteed; we do our best to honor choices. Students must select alternatives for semester electives. Year-long elective choices do not require an alternative choice.
- Schedule changes are not allowed once students are registered. Staffing is based on registration selections.

Class of 2032 Counselor: Jenny Steele jsteele@everettsd.org

Class of 2031 Counselors: Shannon Fraser sfraser@everettsd.org & Jennifer Byrne jbyrne@everettsd.org

Class of 2030 Counselor: Susy Smothers ssmothers@everettsd.org
