We acknowledge the original inhabitants of this area, the sdhubš* people, and their successors, the Tulalip Tribes. Since time immemorial, they have hunted, fished, gathered on, and taken care of these lands and waters. We respect their sovereignty, their right to self-determination, and honor their sacred spiritual connection with the land and water. In Everett Public Schools, we strive to create equitable outcomes and build a culture of inclusive belonging for all students, teachers, staff, and community.

- In honor of Black History Month, we recognize Marie van Brittan Brown. She was an African American nurse and inventor who invented the first home security system featuring a closed-circuit television, a CCTV to monitor her home in Queens, New York. She contributed greatly to making a safer society.
