We acknowledge the original inhabitants of this area, the sduhubš* people, and their successors, the Tulalip Tribes. Since time immemorial, they have hunted, fished, gathered on, and taken care of these lands and waters. We respect their sovereignty, their right to self-determination, and honor their sacred spiritual connection with the land and water. In Everett Public Schools, we strive to create equitable outcomes and build a culture of inclusive belonging for all students, teachers, staff, and community.

- In honor of Black History Month, we honor Lonnie Johnson. Lonnie is a Black engineer and inventor best known for creating the Super Soaker water gun. Before becoming a toy inventor, he worked as a NASA aerospace engineer and helped work on space missions. His success demonstrates how strong scientific and engineering skills can lead to creative, life-changing inventions.
