Are you scared of sharks? Bethany came face to face with one and still got in the waters again. When she was 13, Bethany Hamilton was surfing and got attacked by a shark. It chewed off her left arm but she survived. Believe it or not, Bethany was back in the waters one month later. In two years, she was the overall winner in the Explorer Women's Division in the NSSA National competition.

Her grit and determination were simply impressive.

Remember Gateway, Guard your character!
