

May 2021

Jackson is proud to honor the May Rotary Student of the Month for **Academic Excellence**. Cristine Ihara is a hard-working, adaptable person who loves gardening and swimming. While at Jackson, Cristine has taken eight AP classes, including AB and BC Calculus, AP Physics, and the AP Capstone sequence, all while maintaining a perfect 4.0 GPA. She was recently awarded a certificate for Valedictorian and has been accepted to the University of Washington. Her plan there is to major in biology and study plants specifically, while also discovering what career path to pursue.
