

March 19, 2023: Congratulations to Adrian Armstrong and Ava Furby who placed first at FCCLA state for their Food Innovations project! They will be competing at nationals in July.

Their project demonstrates knowledge of the basic concepts of food product development by creating original prototype formulas for the assigned scenario, testing the product through focus groups, and developing a marketing strategy. Participants will demonstrate their knowledge of food science, nutrition, food preparation safety, and product marketing. Participants must prepare a display, suggested product packaging, and an oral presentation.

The Jackson chapter was also recognized for their participation in community service, competitive events, regional meeting, and Power of One goal setting.
