

March 12, 2023 HOSA State Leadership Conference

Here are the results of our competition last weekend:

JHS had 27 competitors.

The following students ranked in the top 5 for their event:

5th Place Pharmacology: Farid Mohammed Saju

4th Place Extemporaneous Writing: Marianna Augustine

4th Place Health Career Photography: Tyler Nguyen

4th Place Health Career Display Team: Bhumika Singh and Arjun Vinodhan

4th Place Biomedical Debate Team: Grace Dada, Katherine Schaffer, Laasya Chintamani, and Sannidhi Revan - this is an all 9th grade team and they impressed everyone in their competition. Looking forward to what this group can do in the future.

Jaemon Jumpawong took 2nd place in the epidemiology event, automatically qualified for the International Competition in Dallas.

Students that placed in the top 3 automatically qualify for the competition in Dallas. However, if someone in the top 3 cannot compete, then they will move to 4th and 5th place finishers. So some of competitors that were on the edge, may still qualify for ILC.

Shreya Karthik was elected as our new vice president for our region (region 5) and will serve as a state officer next year.

Dylan Thong completed his final duties as our region 5 vice president. He has served in that position for the past two years and did an excellent job.

One last shout out for Ryan Tran and Bhumika Singh, they were approached by an executive council member to help change the learning environment in one of the workshops to be more positive, after students were rude and disrespectful the session before. They did just that by being courteous and respectful. The council member was so impressed that they notified me of what they had done and how proud they were of them. Great examples of our PACK ideals.
