

Rotary Student of the Month February 2022

We would like to recognize Asher Finlon, AP Art student, for the Rotary student of the month. Asher is a talented and hard-working student whose dedication to visual art is exemplary to all of us. As a senior this year, he already has a portfolio of work that would grant him admission to any art school. He intends to go to Western to pursue art as his career.

From Asher: "I've been making art for as long as I can remember. Once I discovered oil painting in middle school, I started to take art more seriously! For the past 5 or so years, I've been refining my skills and working hard to try and improve myself. These days, I love experimenting with multiple medias, my recent obsession being ink printing."

Congratulations to Asher – we are proud of his contributions to the arts!
