

Jackson High School is proud to recognize Jaewon Vassar as the Rotary Student of the Month for Overcoming Adversity. Jaewon moved to Mill Creek from a small town a couple of hours from Chicago, and adjusting the different culture and having to form new relationships was a big challenge for Jaewon. However, he started to connect with other students and committed to being true to himself which led to great success at Jackson. He plans to attend college next year and is considering becoming a high school teacher so he can provide support and guidance for students who also have had to overcome challenges. Congratulations, Jaewon!
