

LEARNING ENGAGEMENT ACTIVITIES AND ASSIGNMENTS FOR APRIL 20 - 24

These frameworks are designed to meet the following goals:

1. Improve predictability in a time of uncertainty, so as to enhance students' social-emotional well-being and learning;
2. Offer support for routines at home and strengthen support systems between home and school

This is a recommended schedule; please note that you can **determine the schedule that works best for your family.**

Time	Monday	Tuesday	Wednesday	Thursday	Friday

- Washington state's Office of the Superintendent of Public Instruction (OSPI) recommends ~ 60 minutes for 2-3 This is not a maximum number of minutes a student should be engaged in learning per day. Required independent work assigned by your teacher (not counting instruction) should be able to be completed within these guidelines.
- If you or your child are concerned over the workload assigned, please connect with your teacher. The common approach in these uncommon times is to keep the social-emotional needs of our students and families in the forefront; to monitor and adjust the "just right" approaches for new learning with students' and families' unique situations in mind.
