- Washington state’s Office of the Superintendent of Public Instruction (OSPI) recommends ~ **60 minutes for 2–3** This is not a maximum number of minutes a student should be engaged in learning per day. Required **independent** work assigned by your teacher (**not counting instruction**) should be able to be completed within these guidelines.
- **If you or your child are concerned** over the workload assigned, **please connect with your teacher**. The common approach in these uncommon times is to keep the **social-emotional needs** of **our students and families** in the forefront; to monitor and adjust the “just right” approaches for new learning with students’ and families’ unique situations in mind.
