

## Welcome to Online Learning!

Thank you for being so flexible during this time when we are all learning together! Please read this document entirely to help you understand how you can assist your child while learning at home.

**Math**- Students will be assigned a learning sheet for each day. The answer key will be sent out on Friday so they can check their answers.

**Reading/Writing**- Students should be reading twenty minutes daily. Students were sent home with their Reach for Reading books and can use this to read from daily. Your child should post a summary of a book or story they have read that week on our classroom discussion. Students can use this as a discussion board to respond to one another.

**iReady**- Students should complete at least 45 minutes of Math and 45 minutes of reading instruction a week for iReady. This should be more than enough time to complete two lessons per subject area.

Please know we are all learning this platform together. If you have questions or concerns, I will try my best to answer them. Please note, it may take up to 24 hours to respond to any emails as I might need to research the answer.

Warmly,

Ms. Francois
