

## Going to the Aquarium

A trip to the aquarium is a fun family activity. It is fun to see many animals.

I love to see fish. They are many colors. Some fish are big. Some fish are little.

I love to see sea jellies. They have bells. They have tentacles. Some sting. Sea jellies float.

I love to see dolphins. Dolphins are gray. Dolphins play. We watched a dolphin show. The dolphins jumped. The dolphins ate fish.

I love to see sharks. They look scary. Sharks have sharp teeth. Sharks eat fish.

The aquarium is fun. You can learn about sea animals.
