Day Sky and Night Sky

by Maya Martinez

The sun rises. It is daytime. Look up.
What is in the day sky?

You might see the
sun. If the sun is shining,
the sky will be bright. Bright
sun can mean a hot day.

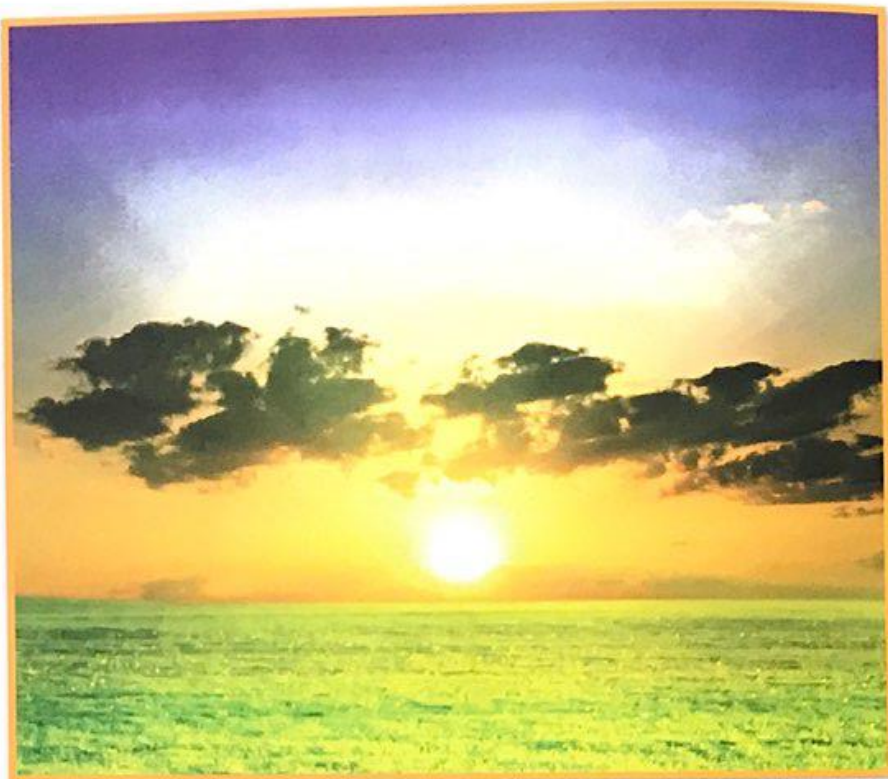

You might see clouds. Have you seen clouds high in the sky? High clouds look thin and white. Low clouds look fat and fluffy.

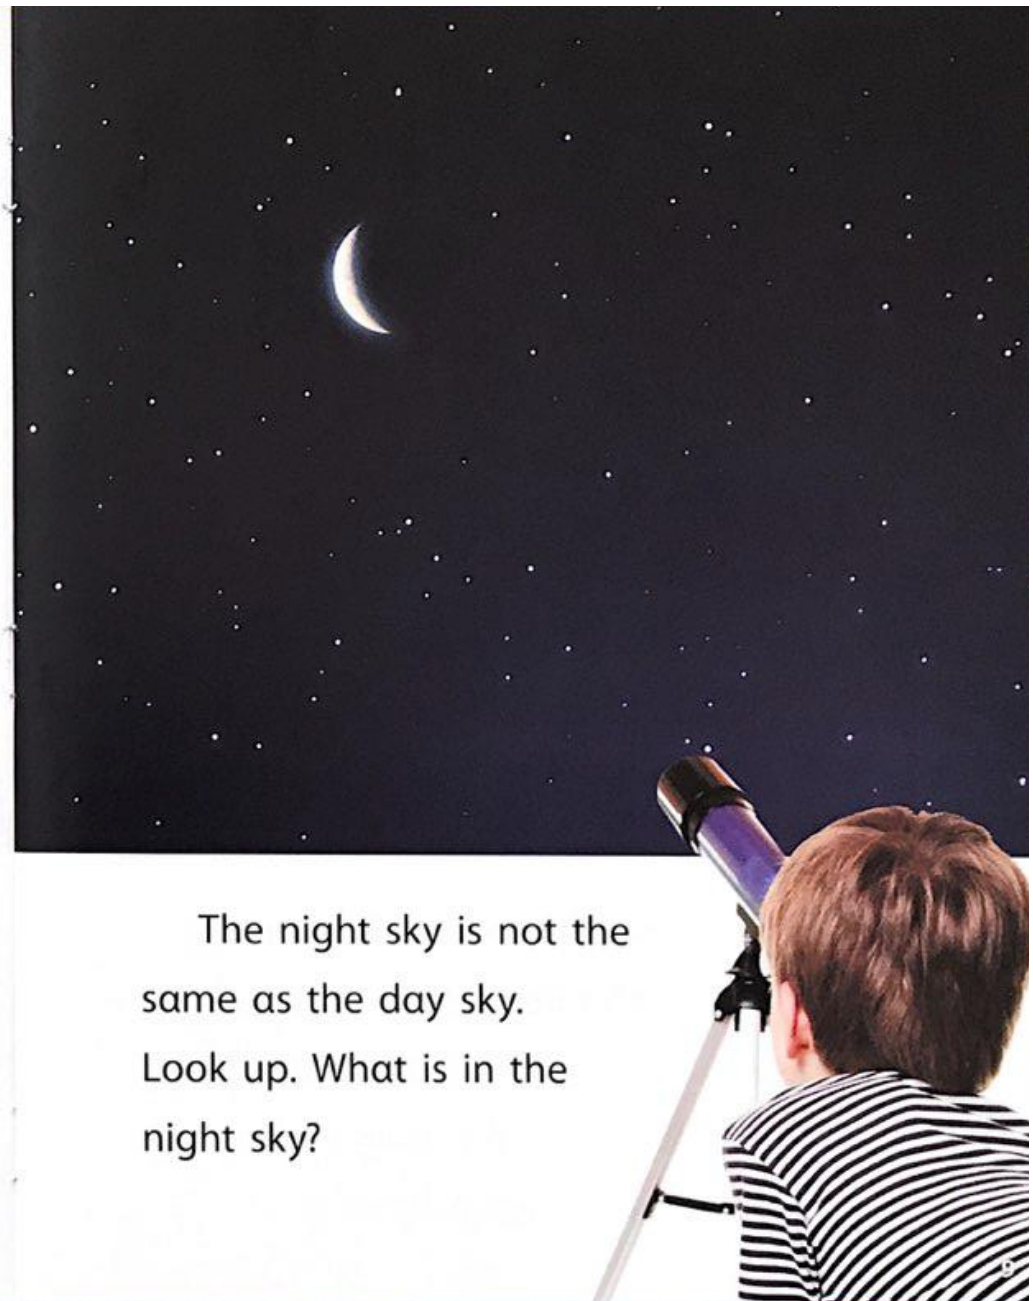

Sometimes gray clouds fill the sky. This means rain might come.

Clouds can hide the sun. The sun is still in the sky. It is above the clouds.

The sun sets. Daylight gets less bright.
Nighttime comes. Soon it is not hot.
It is mild.

The night sky is not the
same as the day sky.
Look up. What is in the
night sky?

phases of the moon

full moon

You might see the moon. The moon will change each night.

When the moon is full, it has a shape like a pie. It shines with a bright light. Sometimes you see just a bit of it.

You might see stars. Stars are big, but they are far away. That is why they seem so small.

The moon sets. The sun rises. Day is on the way. Day and night change places again and again. ✦

sometimes

Key Words

Read the clues.

Answer the riddle.

What Is It?

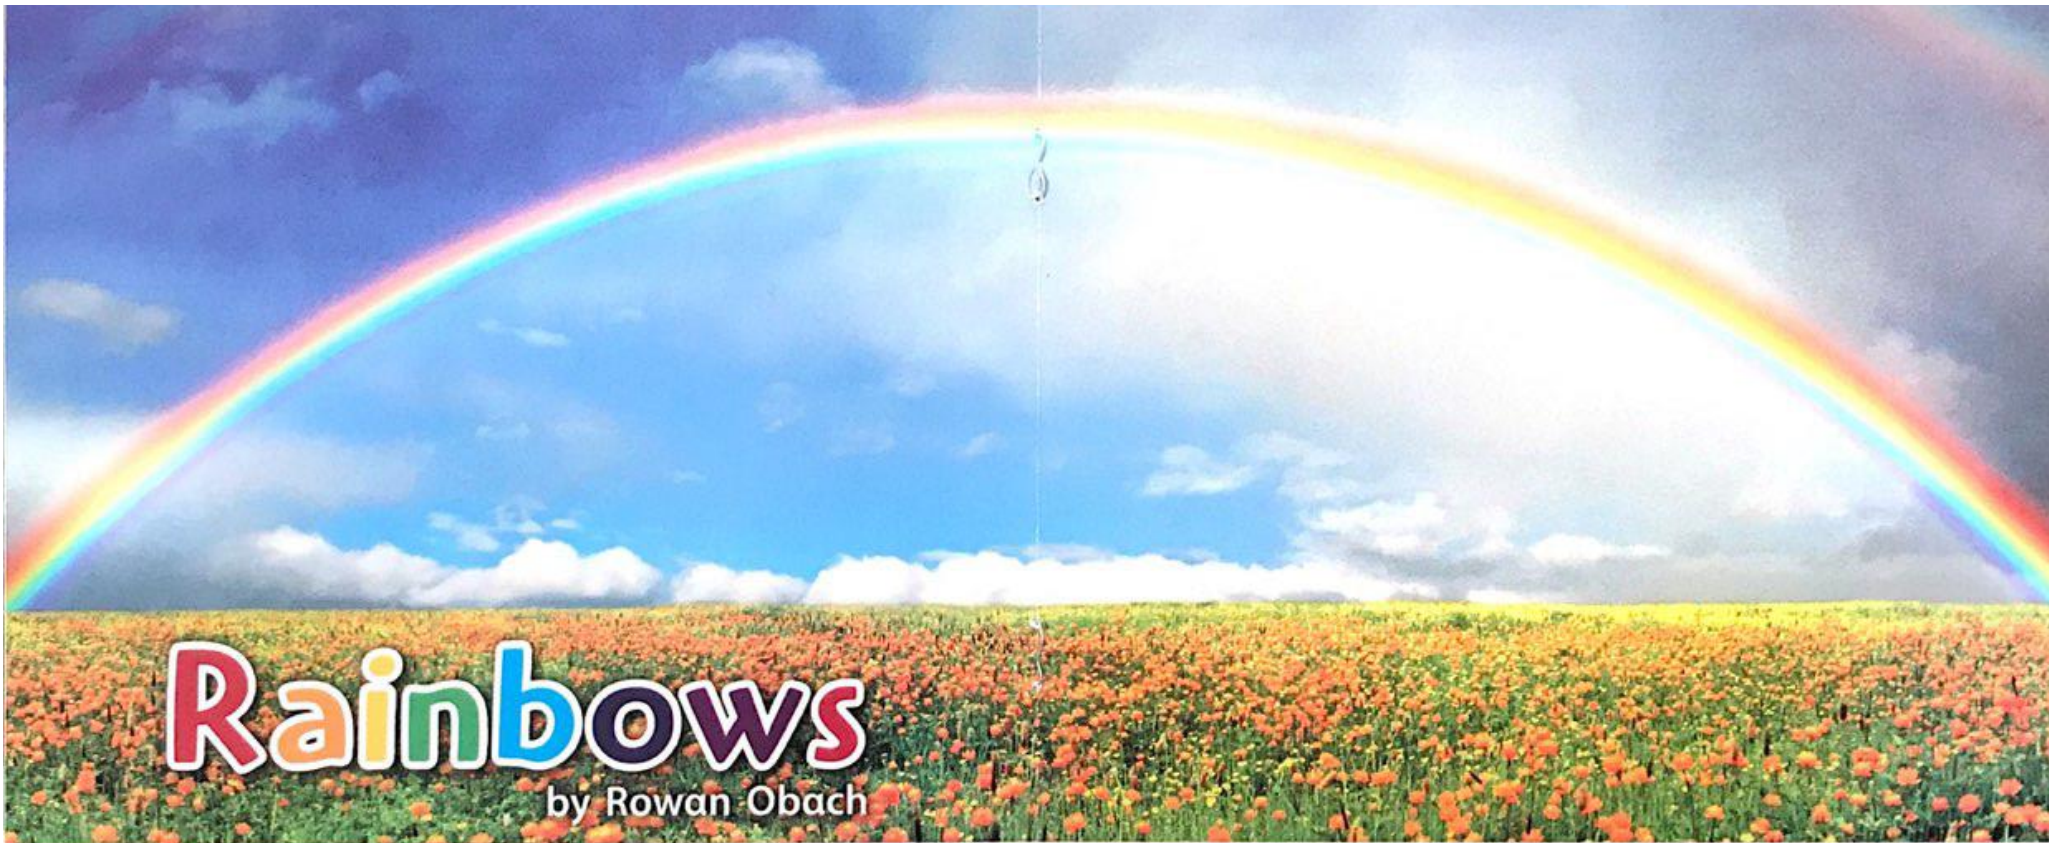

1. It is far **away**, high **above** in the sky.
2. It has **seven** colors.
3. **Sometimes** it can **change** from one to two.
4. Take a look **again**.

What seven colors do you see?

Phonics Games

NGReach.com

What is a rainbow?

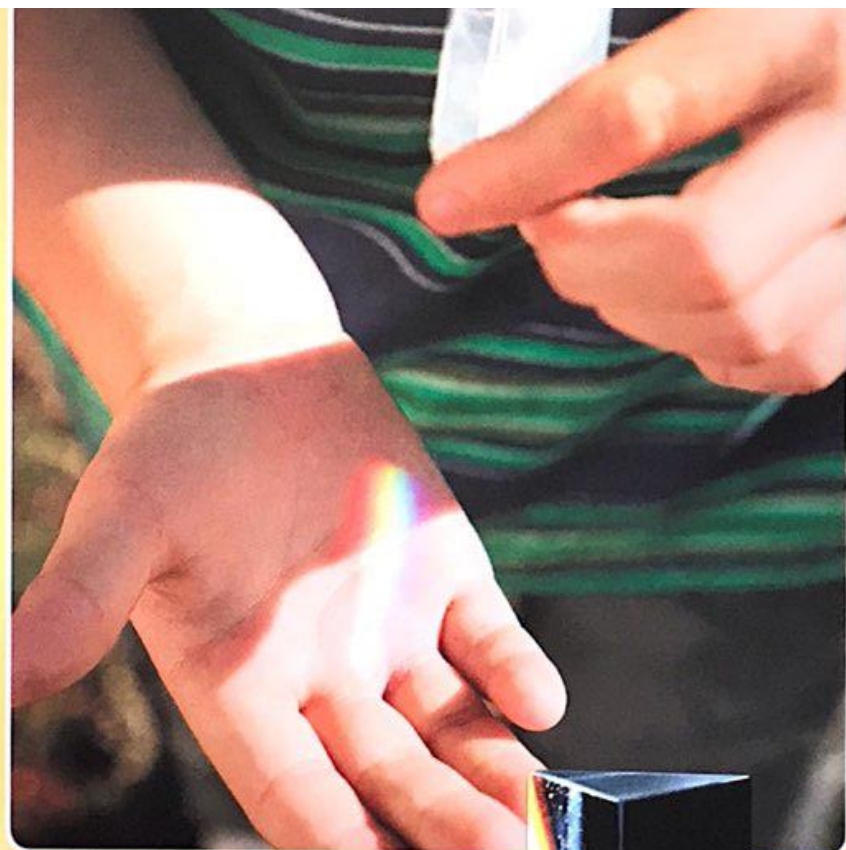

A rainbow is a band of colors. Follow the band with your eyes.

The band stretches from one side of the sky to the other. Its ends seem to be hidden.

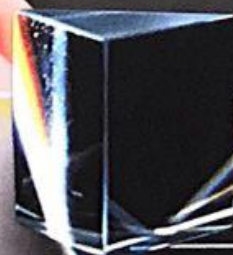

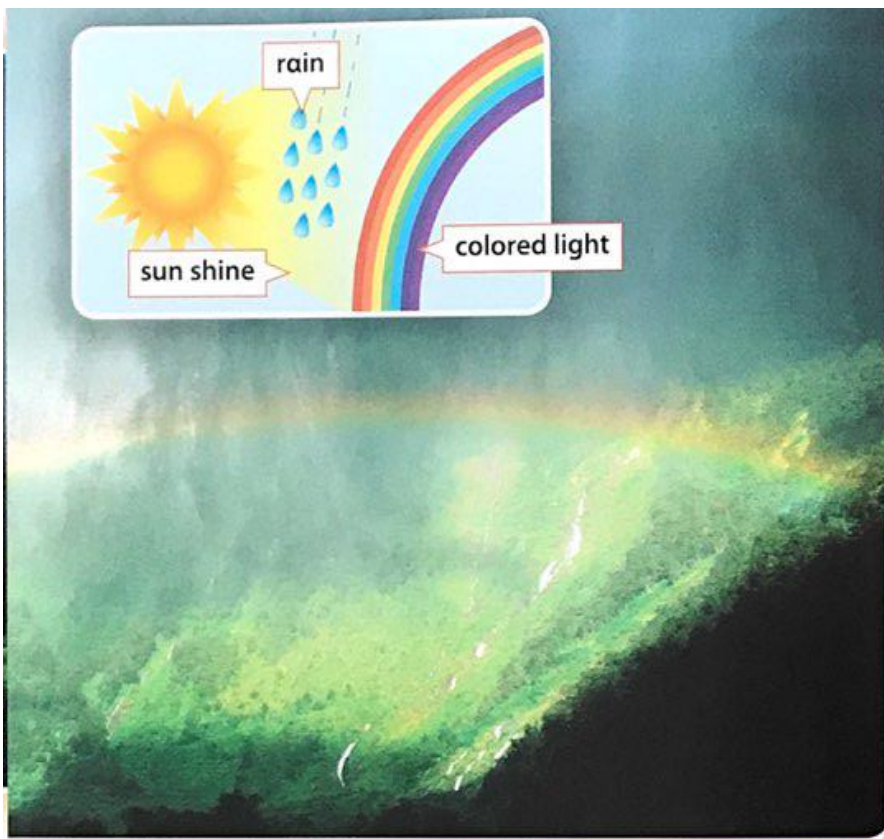

How many colors are in a rainbow?

A rainbow has seven colors. Why?
Light helps make a rainbow. Light has seven colors.

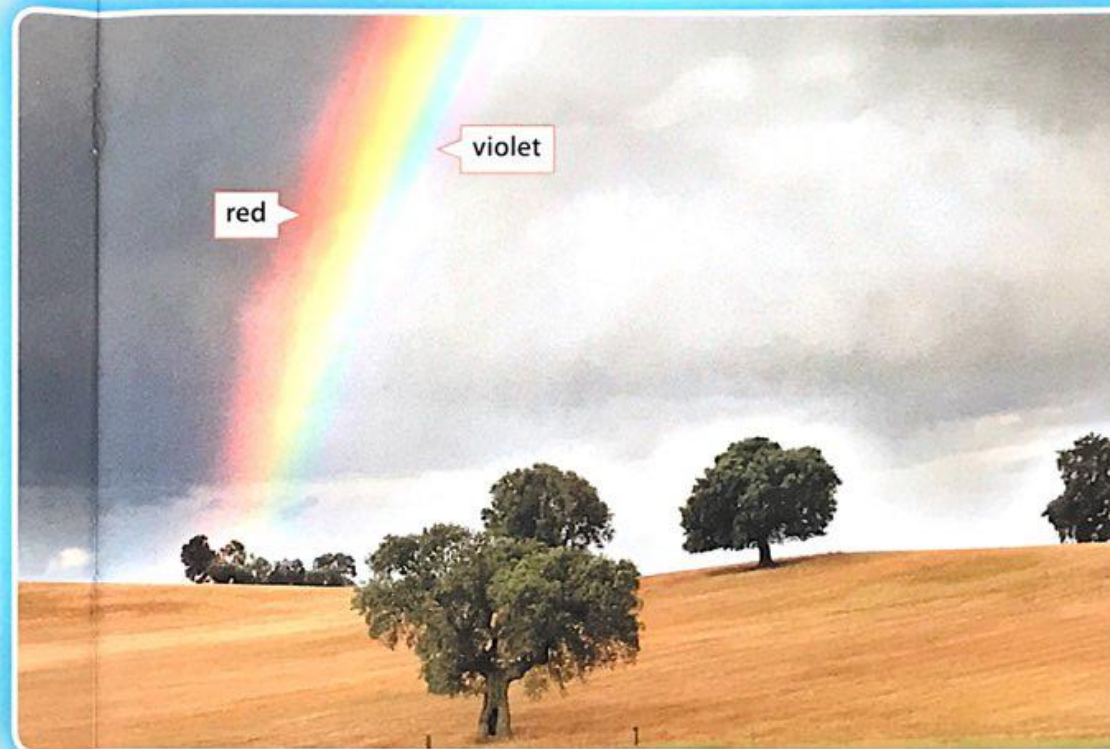

Can you name the
colors in light?

What makes a rainbow?

It rains. Then it gets sunny. The sun shines through the rain droplets.

Look at the sky away from the sun. A rainbow shows up. Red is on the outside. Violet is on the inside. You can see green and yellow in the rainbow, too.

Sometimes two rainbows show up.
One rainbow is above the other. You may
not see that again.

Where are rainbows?

Check the sky when it rains. Spray a
hose into the air. Look at waves in the
sea. Watch a waterfall. Rainbows may
show up in these places.

Not everyone will be lucky and see a rainbow when it rains. If you see a rainbow outside your window, you can feel happy. ❖

Practice Phonics

Syllables

Read these words.

yellow	wet	sun	huge
insect	rainbow	droplet	pillow

Find the words with two syllables. Use letters to build them.

y e l l o w

Talk Together

Choose words from the box to tell your partner about the weather.

The sun is yellow.

1. 
2. 
3. 

Riddle Time

Look at the picture with a partner. Take turns reading the riddles. Then say and point to the answers.

- ❶ This bright object in the sky rises again and again.
- ❷ These two animals fly high above in the sky.

- ❸ This object flies on a string sometimes.
- ❹ This object is hidden away in a basket.
- ❺ These seven are looking for pie.

crickets

rabbit

basket

napkin

pie

insects
