

Families,

You have access to voicemail phone services to communicate with the school in your native language. You can use this voicemail line to leave a message asking to the school to contact you or to inform the school of your child's absence.

In the message please clearly state:

- School name
- The first and last name of your child
- A phone number to contact you
- Your message

It takes 24 to 48 hours for schools to be notified of the message.
