

# Tambark Creek Elementary School

**Tambark Creek Elementary** is situated on eleven acres, with 83,000 square feet of space. The school has two learning wings with classrooms on both the main and second levels. Each wing is filled with natural light, flexible spaces that inspire learning and wellness, and connect to a main atrium with views of the courtyard. Our school was built to promote student connection to nature, having a beautiful wetland on site for outdoor and extended learning opportunities for our students.

# Tambark Creek Elementary School, a scholarly environment, where students:

- Learn in a state-of-the-art facility with safety provisions supported by advanced technology
- Are surrounded by dynamic, dedicated, and visible educators and volunteers who work to make school the best part of each student's day
- Learn collaboratively with their peers in a diverse student environment
- Utilize current technologies to engage in authentic learning experiences that require high expectations with high support
- Enjoy a myriad of field experiences with our STEM-centric community and other locations to enhance their classroom learning
- Work both independently and collaboratively to solve real-world problems
- Choose from a selection of school uniforms to wear to school
- Benefit from participating in music, drama, and visual arts programs
- Are recognized and their sense of belonging allows them to contribute in their own, unique way
- Learn strategies to effectively manage anxiety
- Experience joy and happiness in each day
