

YMCA Camp Orkila

Outdoor Environmental Education Program

Release of Liability

We are so excited that your child will have the opportunity to attend YMCA Camp Orkila this year as part of our Outdoor Environmental Education Program. Please take a few minutes to provide us with the following information.

I am aware that I or my child will have the opportunity to participate in camp activities involving a degree of risk. These activities may include warm ups, games involving running, group initiative problems, and other rigorous physical adventure activities. I also understand that being out-of-doors for periods of time, I or my child may be exposed to wind, rain, and other natural elements, fire or wildlife. Outside of structured class time, students will have the opportunity to participate in camp-facilitated activities including: field and court games, archery, row boats, arts and crafts and marine tank exploration. I am aware that participation in these activities is by the choice of the student and has inherent risks.

If doing a high and low ropes/challenge course, I understand that, wearing harnesses and helmets, I or my child may be climbing trees, walking on cables and logs that are suspended in the air. I understand that there is a degree of physical and emotional risk associated with this type of activity.

If sea kayaking, I understand that I may be exposed to natural conditions for prolonged periods of time and be exposed to cold water, wind, rocky beaches, hypothermia, and possibility of drowning.
