Jackson High School Band Boosters,

The Baldwin family would like to donate the following music production equipment (link below) from the estate of Reed “Redfellow” Baldwin (class of 2016). We hope this equipment will be made available to students at Jackson High School to unlock and explore their musical passions. We estimate that the value of the equipment to be \$3,000.

Our son, Reed, discovered his love of music playing in the music programs at Gateway Middle School and Jackson High School. Knowing how this fed his soul and grew his friendships, we hope this provides the same spark in more students.

If some equipment is not needed, please return it to us so we can be sure it finds a good home.

We thank you for the care of his equipment and putting it to beneficial use.

Brick and Connie Baldwin
