GROWTH MINDSET COLORING ACTIVITIES K-2 (FREE SAMPLE)

Growth Mindset Colouring for the Early Years

Growth mindset is important for building resilience and the ability to learn and grow in our classes each year.

The end of the year is a time when you want to consolidate ideas, while also recognising that your class is tired, looking forward to the summer holidays and ready for a break...

I created a 13 page set of simple 'Growth Mindset' colouring pages for my infant (P1-3 or K-2) classes, and we used them towards the end of the school year. They could also be used during a Health & Well Being Unit looking at growth mindset at any time of year. While older classes have enjoyed colouring mandalas with Growth Mindset sayings, I found these pictures with more concrete examples of children (or turtles) with growth mindsets were better suited to my younger classes.

This free sample contains 3 different coloring pages. If you like these, and find them helpful, please check out the complete [Growth Mindset Coloring and Writing Activities](#) resource, which includes all 13 coloring pages, 4 Growth Mindset (half page) stories with associated question printables, a Growth Mindset word mat, and differentiated writing templates to allow your class to re-tell their own Growth Mindset experiences.
