# Updating Google Chrome Operating System
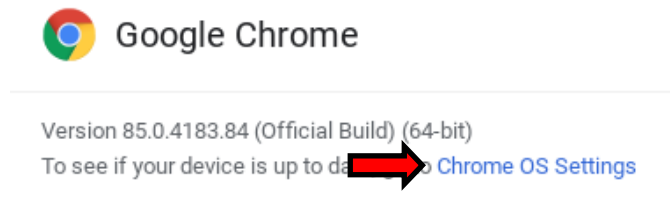

Checking for Chrome Updates

To ensure you are using the latest version of the Chrome browser for our district, once signed-in to the device (Windows PC or Chromebook) click on the **three dots** on the top-right corner of the Chrome browser
After clicking the three dots, choose **Settings** from the menu. On the Settings screen, choose **About Chrome** from the left-side. On a <u>Windows PC</u>, it will automatically update. Once complete, choose **Relaunch**

On a <u>Chromebook</u>, on the right-side underneath the version number, choose **Chrome OS Settings**

On the next settings screen choose **Check for updates**. Once the updates (if available) are installed you will be asked to restart the Chromebook. Choose **Restart** and once the device returns to the sign-in screen proceed with logging back in

For additional assistance, please call the HelpDesk at 425-385-4357 (x4357)
