

Hello, my name is Mrs. Miri. I'm the art teacher.

K

We started the school year with *the Dot*. A story about a little girl that was nervous about art class because she could not draw.

Now we are learning about **lines** and **shapes**, elements of art that artist use to create art. Next element is **color**! We're busy cutting, gluing, and painting.

## Art to Remember Fundraiser

Partnering with our wonderful PTA every student created a special piece of art.

[Art to Remember](#) will scan the artwork and offer over 50 custom printed keepsakes.

Look for personalized order forms the week of

**November 12<sup>th</sup>.**

**Order and payment deadline November 25<sup>th</sup>.**

You can ship directly to your home.

If shipping to school, orders will arrive on December 16<sup>th</sup>.

**Thank you for your support!!!**

In the art room we've been drawing, cutting, and gluing. Students created art projects to review **line**, **shape**, and **color**. Using Crayola washable markers, plastic, and water students learned to transfer color. Did you hear about their fall leaves decorating the school halls? Clay is our next art medium to explore!

2

3

The Great Weave was our first painting inspiration. We worked on using different **lines** to show movement on paper. Our next art unit is on **color**! Students will be using 3 primary colors, mixing tempera paint, to create their own full color wheel with 12 colors. Ask your 3<sup>rd</sup> or 4<sup>th</sup> grader to name the primary, secondary, and tertiary colors.

4

5

Smile! Students created stunning self-portraits using their photos. With watercolors they painted striking backgrounds. Everyone agreed the final product was a masterpiece.

Our next unit is on collage animals. **Collage** comes from the French word *coller*, which means to glue.

Please check with your classroom teacher the day your child has art specialist. While the materials we use in the art room are washable they are not stain free. Save your favorite outfits for another day.
