From the Principal

Dear Families,

Everett Public Schools are committed to continuous improvement and as part of our school improvement process, every school in our district develops and implements a School Improvement Plan that is tailored to its specific needs each year. Our schools analyze a variety of information sources – including student performance trends, state comparisons and staff/parent perception surveys – to identify improvement goals that are specific, data-driven and measurable. To help each school understand its strengths and challenges in areas known to impact educational effectiveness, we would appreciate your input on how our schools are doing.

Below is a link for an online, multiple-choice survey. I ask that you please complete and submit the survey by the end of March. If you have more than one child in the Everett Public Schools, you may complete a survey for each school your children attend. Please complete each survey so that all of your children’s schools will benefit from your feedback.

The survey questions were developed by the Center for Educational Effectiveness, a Bellevue, Washington-based educational research firm, in collaboration with the Office of the Superintendent of Public Instruction for Washington State. As a cost savings measure, our district has moved away from paper surveys, to electronic versions made available to parents.

Please take a few minutes and send your input on the Educational Effectiveness Survey. I truly appreciate your time and participation. Your feedback is very important to our ongoing school improvement efforts as we endeavor to make our schools the very best for the students who attend them.

Respectfully,

Kevin Allen
