Dear FVE 5th grade families,

5/10/2020

As we roll into mid-May and the sunshine returns, we hope you are able to find a **sunny outlook** through this distance learning. One of the sunniest moments of our week is when we have an opportunity to talk with the kids. During our small group meetings, the students have provided such incredible feedback that is truly guiding what/how we present our lessons. One of our ah-has is that students haven't been seeing our feedback. Students can see and show you feedback on returned work by going into the classwork feed and either searching for an assignment OR clicking the "view my work" button. In there, when they click on returned assignments, any assignment with a comment will have the comment talk-bubble next to it and anything that had numbers attached (eg. Google forms) will show there as well. They can open their google forms to see question by question feedback, they can read comments, etc. We are working on building in time to the learning plan for students to go in and read through their feedback – this week that will be part of Friday. So, please note that this reflection time is coming and it is in large part due to the small groups and kids being willing to let us know what is and isn't working. Way to go 5th graders!

Attached are the lesson plans for the week. It would be helpful to think of the overview page as the **DAILY PLANNER**, like the one we used to fill out each day in class. It may be good to print it and use it as a check off list of what is due. **Always remember, the best place for your students to begin their lessons each day is to log into their Google Classroom and check the Classwork feed each day!**

We miss you all and hope you all stay safe, sane, and healthy. 😊
